Council resumed second reading of Select Council resolution No. 114, entitled "Resolution to appoint a Joint Special Committee to consider a bill relative to the construction of the Philadelphia and Reading Terminal Railroad."

The question recurring on agreeing to the resolution,

Mr. Smithers moved to amend by substituting the following :

RESOLUTION

Of request to the Philadelphia and Reading Terminal Railroad Company to inform these Councils whether it still adheres to its proposition to build a railroad elevated only to Broad and Noble streets and Ninth and Wallace streets, or will agree to elevate the same throughout the built up portions of the City.

WHEREAS, The only proposition or statement that has been made to Councils by the Philadelphia and Reading Railroad Company, or by the Philadelphia and Reading Terminal Railroad Company, with reference to the construction of the Reading Terminal Railroad, is that contained in the communication from Austin Corbin, Esquire, President of the Philadelphia and Reading Terminal Railroad Company, dated November 26, 1889 (Common Council Appendix No. 117), and setting forth as follows:

“WHEREAS, In the language of the Honorable Court, in the recent decision, ‘The best interests of the City and its inhabitants favor the building of the proposed elevated road,’ and Philadelphia cannot afford to stand still amid the universal activity and progress which prevails at the present time in the direction of increased facilities for trade and communication with the outside world, and the Court declared that ‘in the construction of such a railroad the City Councils of the City of Philadelphia should only exact such reasonable conditions as may be necessary to secure the safety of lives and property and promote the interests of the City,’ and that they would not be justified in imposing unreasonable, unusual, or burdensome conditions upon the Company, or in placing unnecessary obstacles in the way of the consummation of the enterprise.’

“*Resolved*, That the Philadelphia and Reading Terminal Railroad Company request the City Councils to consent to the construction of the Terminal Railroad according to the plans, copies whereof are enclosed herewith, subject to such conditions as are in harmony with the hereinbefore recited declarations of the Court upon this matter.”

And WHEREAS, The plans referred to in said communication and now on file in these Councils show the desire and intention of the Philadelphia and Reading Terminal Railroad Company to build a railroad elevated only from

Twelfth and Market streets to the East side of Broad street, at Noble street, and to Ninth and Wallace streets, from which points the road will run on the surface, thus entailing upon Philadelphia, on the Noble street branch, a surface railroad through the Fifteenth Ward, crossing at grade eleven opened streets between (and including) Broad street and Fairmount Park, six of which are occupied by Street Passenger Railways; and on the Ninth street branch a surface railroad through the Twentieth, Twenty-eighth and Thirty-second Wards, crossing at grade twenty-one opened streets, between Wallace street and Germantown Junction, seven of which are occupied by Street Passenger Railways, two of them with double tracks;

And WHEREAS, A railroad so built and operated will not "secure the safety of lives and property and promote the interests of the City," but will constitute a permanent danger to the lives and limbs of the people, and be greatly detrimental to the material interests of the City: *Therefore,*

Resolved, by the Select and Common Councils of the City of Philadelphia, That the Philadelphia and Reading Terminal Railroad Company be, and is hereby requested to inform these Councils whether it still adheres to its proposition to build a railroad elevated only to Broad and Noble streets and Ninth and Wallace streets, or will agree to elevate the same throughout the built-up portions of the City; And, That pending a reply to the request herein made, action upon the "Resolution to appoint a Joint Special Committee to consider a bill relative to the construction of the Philadelphia and Reading Terminal Railroad" (Select Council Appendix No. 114), and upon the bill mentioned in said Resolution be postponed.

Mr. U. C. Smith raised the point of order, that the resolution offered by the Member from the Twenty-ninth Ward is out of order, because it is not relevant to the question, and antagonistic thereto; that it is a matter of detail for the consideration of the Committee, and not a matter for amendment to the Resolution now before the Chamber; that a question is now pending before the Chamber, and this resolution is out of order until that is disposed of.

The President decided that resolution of request for information could not be coupled with a motion to postpone, being a subsidiary motion and standing by itself.

Whereupon Mr. Smithers withdrew the following: "And that, pending a reply to the request herein made, action upon the 'Resolution to appoint a Joint Special Committee to consider a bill relative to the construction of the Philadelphia and Reading Terminal Railroad' (Select Council Appendix No. 114) and upon the bill mentioned in said Resolution be postponed."

The question being on agreeing to substitute the above resolution,

Mr. U. C. Smith raised the point of order, the only question for this Chamber to act upon is to concur or non-concur in the Resolution messaged to this Chamber by Select Council.

The President decided the point not well taken.

The question recurring on agreeing to the motion to substitute the resolution,

Mr. Roberts moved that the resolution be postponed for the present.

Which was agreed to.

at the end of twelve years, in consideration of the privileges hereby granted."

Mr. Roberts raised the point of order, that the motion to reconsider was not in order, because not made within the time provided by the rules of Council.

The President decided the point well taken.

APPENDIX No. 14.

OFFICE OF THE MAYOR.

Philadelphia, October 10, 1889.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—I have the honor to herewith transmit for your consideration a communication, which has my approval, from Louis Wagner, Director of the Department of Public Works, requesting an amendment of the Ordinance prescribing the route of the Cohocksink sewer, also a copy of the report of the Chief Engineer and Surveyor in connection with this subject.

I am, respectfully,

EDWIN H. FITLER, *Mayor*.

DEPARTMENT OF PUBLIC WORKS.

Philadelphia, October 9, 1889.

HON. EDWIN H. FITLER,
Mayor of Philadelphia.

DEAR SIR:—After a farther examination of the plans heretofore adopted for the relief of the Cohocksink sewer, by the building of a twin sewer from the Delaware river on Shackamaxon street to Thompson street, on Thompson street to Third and Germantown avenue, on Germantown

avenue to Norris street, and on Norris street to Ninth street, I requested the Chief Engineer and Surveyor to consider a plan for building a sewer from Ninth and Norris streets, down Norris street to Susquehanna avenue or Otis street, and down Otis street through the wharf of the Kensington Pumping Station to the river.

He gave the matter his careful consideration, and the conclusions reached by him are embodied in his report, a copy of which is hereto attached.

I have the honor to request that you will ask Councils to amend the Ordinance heretofore passed, which directs a sewer to be built upon the route above named, so that it may be constructed on the route last suggested.

The advantages of such a change are apparent at a glance at either a map or the topography of that portion of the City through which the sewer is to pass. The principal point of the difficulty in connection with the Cocksink sewer, and which, outside of its original bad construction, is the cause of the numerous breaks occurring on its line, is found at the corner of Ninth and Norris streets, where a thirteen-feet sewer empties into a nine-feet sewer, and this again into one eight feet in diameter.

It is good engineering, as well as common sense, to reach this difficulty by the shortest and most direct possible route, and in as nearly a straight line as possible. The original plan for the relief of the sewer contemplated a structure along some of the busiest thoroughfares of our City, and making its first connection with the sewer to be relieved at the corner of Third and Thompson streets, which would leave the condition of the sewer, from that point to Ninth and Norris streets, in as unsatisfactory shape as at present.

The route now proposed is in almost a straight line, having only two obtuse angles, one at Front and Norris streets, and the other at Susquehanna avenue and Norris street, and its construction will not only reach promptly the principal point sought, but will also drain a large portion of the City north of the line of Norris street, thereby relieving one or two points in that locality subject to periodical overflows.

In addition to all these advantages of route can be urged the fact that the construction through the City's own

wharf, at the foot of Susquehanna avenue, will prevent large claims for damages, always made when structures of this kind are built through private property, and the construction, if made as proposed, will finally and positively decide the immediate abandonment of the Kensington Pumping Station.

As a final argument in favor of the new plan of construction, it is only necessary to cite the estimates of the Chief Engineer and Surveyor, who says that according to the plan first proposed the sewer will cost four hundred and eighty-five thousand (485,000) dollars, while according to the second plan, which accomplishes all the good contemplated by the first and much more in addition, the expense will be but three hundred and fifty thousand (350,000) dollars, a saving of one hundred and thirty-five thousand (135,000) dollars.

It is important that Councils should give this matter their immediate attention, so that if they approve of the contemplated changes a new ordinance may be passed at once, bids be advertised for, and the work be put in hand immediately.

Yours truly,

LOUIS WAGNER, *Director.*

—

DEPARTMENT OF PUBLIC WORKS.

Philadelphia October 5, 1889.

LOUIS WAGNER, Esq.,

Director of Department of Public Works.

DEAR SIR:—I have made an examination of the line of Norris street for the location of main sewer from Ninth street to the Delaware river. The grades in the vicinity of the Aramingo canal are too low without extensive revisions, and the discharge would be at Cramp's shipyards, where damages would be very high. Your suggestion that the Kensington pumping-station would be likely to be abandoned gets rid of the question of the pollution of the drinking water at that place, so that from Norris

street to the Delaware river along Susquehanna avenue can be made the best outlet of them all, the distance being only 150 feet more than the Shackamaxon line, with only about two feet raising of grade, required for a short distance at Beach street.

I have made an examination of the pumping buildings and find the sewer can be carried through the basement of the pumping station by removing two of the boilers and a large pier.

There are large 18 inch and 36 inch water-mains along Susquehanna avenue which would have to be removed in places where they would interfere.

The Shackamaxon street outlet from Ninth and Norris streets to the Delaware river will be 11,673 feet long, and will cost \$485,000. The Susquehanna avenue outlet from Ninth and Norris streets to Delaware river will be 9,680 feet long, and cost \$350,000.

The temporary outlet can be made into the head of the present dock, and between the time of the abandonment of the pumping station and the use of the building for another purpose, the sewer can be extended to the end of the pier. I think the City should retain possession of this property for the use of the public as a "breathing place" and boat landing, by a permanent construction not included in this estimate. The removal and relaying of the water-mains along Susquehanna avenue should be done by the proper Bureau, and might be charged to the construction of the sewer, and not given into the hands of the contractor as the contracts are now made. Authority for the same might be given in ordinance for the construction of the sewer. The ordinary flow of sewage at Howard and Ninth streets can be turned into the old Cohocksink sewer, leaving a very small amount of local sewage to be delivered at the pumping station for the first year or two.

The Susquehanna avenue outlet to the sewer will cost at least \$100,000 less than the other, and if the pumping station is to be abandoned it will offer very great advantages over the other line.

We are now busily engaged in preparing plans and profile. Please let me know whether it will be best to advertise for this line and let the whole legislation by Councils be done in the approval of the contract, or whether

you will wait until the ordinance is passed authorizing this line instead of Shackamaxon street.

Yours truly,

SAMUEL L. SMEDLEY,
Chief Engineer and Surveyor.

OFFICE OF THE MAYOR.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—I have the honor to herewith transmit for your consideration, a communication, which has my approval, from Louis Wagner, Director of the Department of Public Works, requesting an appropriation to pay salaries and expenses, office of District Surveyor, Fourth District.

I am, respectfully,

EDWIN H. FITLER, *Mayor.*

DEPARTMENT OF PUBLIC WORKS.

Philadelphia, October 9, 1889.

HON. EDWIN H. FITLER,
Mayor of Philadelphia.

DEAR SIR:—Mr. E. D. Roberts, Surveyor of the Fourth District has died. Under the present law his successor will be paid a salary, the fees received by him being paid into the City Treasury, both his salary and expenses of his office being dependent upon the moneys earned by him.

In all other Districts officered in this way the receipts have always been largely in excess of the expenditures.

I have the honor to request that you will ask Councils to pass an Ordinance making an appropriation for this purpose as follows:

Salary of District Surveyor, from September 12, to December 31, 1889.....	\$900 00
For Salaries of Assistants.....	800 00
For Office and other Expenses.....	300 00
	<hr/>
	\$2000 00

This matter should have early attention because the gentleman filling this place temporarily is now at work with no means at hand to pay him and his assistants.

Yours truly,

LOUIS WAGNER, *Director*.

APPENDIX No. 16.

OFFICE OF THE MAYOR.

Philadelphia, October 7, 1889.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—I have honor to return herewith, without my approval, an ordinance entitled “An Ordinance to authorize the resurfacing of Ridge avenue, from Roxborough avenue to Monastery avenue, in the Twenty-first Ward, with broken stone.”

This ordinance authorizes and directs work to be done, which is of the utmost importance for the convenience of the people having occasion to use Ridge avenue at this point, the street having been graded and left in such a condition that without a covering of stone it will be almost impassable for travel during the winter.

Unfortunately the ordinance herewith returned provides that the cost of the work directed to be done, eight hundred dollars, shall be taken from Item 4 in the annual appropriation to the Department of Public Works, Bureau of Highways, for this year. There is to the credit of this Item, not charged off under contracts already

executed, the sum of six hundred and twenty-three dollars and sixty-seven cents ; more than six hundred dollars of this amount is required to pay for the construction of certain trunks and drains under streets now in progress of being graded by direction of ordinances of Councils, and it is therefore impossible to take from this amount the sum of eight hundred dollars required to be expended under the provisions of the ordinance herewith returned without my approval.

I shall be very glad to approve an ordinance for the work contemplated by the one herewith returned unsigned, if it contains a proviso making an appropriation to pay for the same.

I am, respectfully,
EDWIN H. FITLER, *Mayor*.

APPENDIX No. 17.

OFFICE OF THE MAYOR.

Philadelphia, October 7, 1889.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—I have the honor to return herewith, without my approval, an ordinance entitled “An Ordinance to authorize the resurfacing of Point House Road and East Jones’ Lane, First Ward.”

This ordinance authorizes and directs the resurfacing of Point House Road and East Jones’ Lane, First Ward, at a cost not exceeding twenty-five hundred (2,500) dollars, the amount to be taken from Item 4 in the annual appropriation to the Department of Public Works, Bureau of Highways, for the year 1889. The whole amount appropriated to this item from which it directed that the money for the work to be done under the provisions of this Ordinance shall be taken, has been charged off under contracts executed, except the sum of six hundred and twenty-three and sixty-seven one hundredth ($623\frac{67}{100}$) dollars. More than six hundred (600) dollars of this balance is required to pay

for certain trunks and drains being built for the drainage of streets actually being graded by direction of Ordinances of Councils.

Under these circumstances it would be impossible to comply with the provisions of the Ordinance to take twenty-five hundred (2,500) dollars from this item for the work contemplated.

I am, respectfully,
EDWIN H. FITLER, *Mayor*.

AN ORDINANCE.

To authorize the appointment of an additional sergeant
for the Twenty-fourth Police District

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Director of the Department of Public Safety is hereby authorized to appoint an additional sergeant for the Twenty-fourth Police District, for duty at the sub-station at Nicetown, to be charged to Item 1, for salaries, in the annual appropriation to the Department of Public Safety (Bureau of Police), for the year 1889.

APPENDIX No. 39.

Philadelphia, October 17, 1889.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—The Committee on Fire and Health respectfully report that they have considered a message from the Mayor transmitting a communication from the Director of Public Safety, accompanied with a proposed ordinance from the Board of Health to prohibit the sale of impure milk (see C. C. Appendix No. 33,) and for the reasons contained in the report of the sub-committee hereto appended, report the ordinance back with a negative recommendation, and request the passage of the annexed Resolution.

John L. Baldwin (*Ch'n*), Jos. H. Brown, John H. Baizley, Chas. C. Wackerhauser, W. Van Osten, L. A. Prince, Wm. A. Miller, Thos. Wagner, Jr., Thos. M. Hammett, Wm. McMurray, Thos. J. Rose, O. M. Willson, William McMullen, John E. Hanifen.

To the Committee on Fire and Health.

GENTLEMEN:—The Sub-Committee, to whom was referred the message of the Mayor transmitting a communication from the Director of Public Safety, forwarding a

communication from the Board of Health, together with copy of proposed ordinance to prohibit the sale of impure milk in the City of Philadelphia respectfully report, that they have carefully considered the proposed ordinance, and while they are of the opinion that the people are entitled to have thrown around them every safeguard from danger, resulting from the use of impure and adulterated milk, such as is contemplated by said ordinance, yet that protection can only be afforded by the State Legislature. While it is exceedingly doubtful if we could under any circumstances define by ordinance what would be an adulteration, and what the requisite standard for pure milk, and impose a penalty for handling or selling the milk so adulterated or diluted, yet it is clear that we have no authority to reach the real offender, to wit, the producer, for it is a well-known fact that the greater part of the milk consumed in the City of Philadelphia is shipped from the adjacent counties and it would be highly improper for us either directly or by implication to say that the adulteration is exclusively confined to a class of business men, among whom are to be found many of our most estimable citizens. We therefore report the ordinance back and recommend that it be reported to Councils with a negative recommendation.

Wm. A. Miller, (*Ch'n*), Chas. C. Wackerhauser, Thos. Wagner, Jr., James P. Park.

RESOLUTION.

To discharge the Committee on Fire and Health from the consideration of an ordinance to prohibit the sale of adulterated or impure milk.

Resolved, by the Select and Common Councils of the City of Philadelphia, That the Committee on Fire and Health be discharged from the further consideration of a proposed ordinance from the Board of Health to prohibit the sale of adulterated or impure milk in the City of Philadelphia.

OFFICE OF THE MAYOR.

Philadelphia, October 12, 1889.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—I have the honor to herewith return, without my approval, an Ordinance entitled “An Ordinance to authorize the paving of Forty-third and Farragut streets and Susquehanna avenue.”

I am unable to approve this ordinance because there is no money to pay for the work which it directs shall be performed. On September 4, 1889, I transmitted for the consideration of your Honorable Bodies a communication from Louis Wagner, Director of the Department of Public Works, which showed that streets had been ordered to be paved, the cost of which, in so far as it was to be paid by the city and be charged against Item 2, Section 15 of the appropriation to the Department of Public Works for the current year, was ninety-one thousand, five hundred and fifty (91,550) dollars and ninety-one (91) cents in excess of the appropriation. Since then no additional funds have been placed at the disposal of the Department of Public Works for such work, and I, therefore, must withhold my approval from the ordinance herewith returned, which directs work to be done at a further cost of eighty four hundred (8,400) dollars.

I am, respectfully,

EDWIN H. FITLER, *Mayor.*

GENTLEMEN:—I have the honor to herewith return, without my approval, an ordinance entitled “An Ordi-

nance to authorize the paving of Twenty-sixth, Nineteenth, Fifteenth, Westmoreland, Brooklyn, and Twenty-third streets and Fairmount avenue."

I am unable to approve this ordinance, because there is no money to pay for the work which it directs shall be performed. On September 4, 1889, I transmitted for the consideration of your Honorable Bodies a communication from Louis Wagner, Director of the Department of Public Works, which showed that streets had been ordered to be paved, the cost of which, in so far as it was to be paid by the city, and be charged against Item 2, Section 15, of the appropriation to the Department of Public Works for the current year, was ninety-one thousand five hundred and fifty (91,550) dollars and ninety-one (91) cents in excess of the appropriation. Since then no additional funds have been placed at the disposal of the Department of Public Works for such work, and I, therefore, must withhold my approval from the ordinance herewith returned, which directs work to be done at a further cost of five thousand three hundred and fifty (5,350) dollars.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—I have the honor to return herewith, without my approval, an ordinance entitled "An Ordinance granting permission to the Times Publishing Company to lay pipes under Sansom and Eighth streets."

This ordinance gives authority to the firm named to tear up Eighth street, from Chestnut to Sansom street, and Sansom street from Eighth street, westward, to a building on the south side of Sansom street, for the purpose of laying a six inch iron pipe to convey steam; and,

also, one pipe, of material and size not mentioned, to be used as a pneumatic tube.

The streets under which these pipes are to be laid, namely, Eighth street, from Chestnut to Sansom street, and Sansom street, westward, have just been repaved with Belgian blocks. The work has been done so lately that it has not had time to properly settle, and to disturb it now would do great damage to the street, which it would be difficult to repair.

I trust that further consideration of this ordinance by your honorable bodies will cause you to look at this matter in the same light, so that my disapproval of the ordinance will have your endorsement, thereby postponing the work for the present.

I am, respectfully,
EDWIN H. FITLER, *Mayor*.

APPENDIX No. 45.

Philadelphia, October 11, 1889.

To the Select and Common Councils

GENTLEMEN:—I have the honor to report, in accordance with section 2, of an ordinance, entitled “An Ordinance to appropriate for park purposes the land contained within the boundaries of Bartram’s Garden, in the Twenty-seventh Ward; Juniata Park, in the Twenty-fifth Ward, and Northwood Park, in the Twenty-third Ward,” approved March 12, 1889, that I have been unable to arrive at a satisfactory price with the owners of Bartram’s Garden, and also of Northwood Park, and have terminated the negotiations for these properties, and notified the City Solicitor to that effect.

In reference to Juniata Park, I have to report that about twenty-seven and one-half ($27\frac{1}{2}$) acres, belonging to the estate of Comegys Paul, was offered at fifteen hundred (1500) dollars per acre, which I consider a fair and reasonable price; but the balance (about five and one-half

(5½) acres), belonging to A. and E. S. Hunt, *et al*, is held at twenty-five thousand (25,000) dollars. This piece of land contains a valuable quarry, and hence its price.

The representatives of the estate of Comegys Paul are willing to sell more of their ground at fifteen hundred (1500) dollars per acre, if the City should desire it, and I would ask that the matter be referred to the proper committee of your Honorable Bodies to ascertain if the plan of this park can be changed so as to avoid the payment of so large a price as is asked for the five and one-half (5½) acres belonging to A. and E. S. Hunt *et al*.

I am, respectfully,

EDWIN H. FITLER, *Mayor*.

DEPARTMENT OF SURVEYS.

Philadelphia, October, 22, 1889.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys and Regulations, to whom was referred the accompanying "Ordinance to make a topographical survey of a portion of the Twenty-seventh Ward, beg leave to report, that streets have been projected in various parts covered by this section, and it is necessary to establish a regulation for the lines and grades to avoid uncertainty and expense. We therefore report favorably an ordinance to fix the lines and grades, based upon a topographical survey, of which we respectfully ask your approval.

Thomas L. Hicks (*Ch'n*), W. H. James, O. M. Willson, Thos. Wagner, Jr., Jos. H. Brown, L. W. Moore, Geo. L. Horn, John O. Taxis, S. A. Fleming, Chas. F. Iseminger, W. McCoach, James Kenton, D. C. Cleaver.

APPENDIX No. 51.

Philadelphia, October 24, 1889.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the accompanying petition and Ordinances to authorize the construction of branch sewers in various streets, beg leave to report that a very careful examination into the matter of branch sewers, has revealed the fact that in various ordinances passed by Councils since 1883, there have been included sewers which the Department of Public Works finds it impossible to build at this time, and probably not for some time to come, because the streets have not been dedicated, or legally opened, or the properties fronting on the street are assessed at suburban rates, and the owners will not agree to pay the assessments. We find that there are sewers of this character, on which the cost to the City amounts to some thirty-five thousand (\$35,000) dollars; but as the contracts for the work have not been executed, we are of the opinion that it is our duty to report the facts to Councils, and at the same time report the annexed "Ordinance to authorize the construction of sewers, for the purpose of affording prompt relief to hundreds of new properties throughout the City which are in need of them for drainage. Nearly

all of them are small, and can be built this year." The aggregate length of these sewers is thirty-four thousand (34,000) feet, the total cost of which is about one hundred and one thousand (101,000) dollars. The assessments against the properties fronting on these streets will yield about sixty-eight thousand (68,000) dollars, leaving to be paid by the City an estimated deficiency of thirty-three thousand (33,000) dollars. We ask the passage of the Ordinance.

Thomas L. Hicks (*Ch'n*), O. M. Willson, Thos. Wagner, Jr., Jas. H. Brown, L. W. Moore, Geo. L. Horn; John O. Taxis, S. A. Flemming, W. H. James, Chas. F. Iseminger, W. McCoach, James Kenton, D. C. Cleaver.

posited; the water lays in the deepest part of said lot and stagnates, which, together with the rubbish deposited, is a public nuisance which ought to be abated at once. We would also add that the lot is surrounded by very fine residences. They, therefore, recommend the resolution to your favorable consideration.

Thos. Wagner, Jr. (*Ch'n*), W. Van Osten, W. McMurray, Jos. H. Brown.

Resolved, by the Select and Common Councils of the City of Philadelphia, That the Board of Health be, and it is hereby requested to take immediate action for the total abating of said nuisance, so that said lot shall no longer be a menace to life and health.

APPENDIX No. 53.

OFFICE OF THE MAYOR.

Philadelphia, October 30, 1889.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—I have the honor to herewith transmit for your consideration, a communication, which has my approval, from Louis Wagner, Director of the Department of Public Works, concerning the building of sewers or laying of drain pipes by owners of property, on streets not yet dedicated to the City.

I am, respectfully,
EDWIN H. FITLER, *Mayor.*

DEPARTMENT OF PUBLIC WORKS.*Philadelphia, October 30, 1889.*

HON. EDWIN H. FITLER,
Mayor of the City of Philadelphia.

DEAR SIR:—The Chief Engineer and Surveyor reports that cases continually arise where owners of property built sewers or laid drain pipes in the streets not yet dedicated, and which are subsequently made public highways by dedication, and that these sewers and drain pipes are laid without regard to the general drainage system of the City, causing great confusion, and very frequently unnecessary expense on the part of the City to adapt these irregularly laid drains to the requirements of the general drainage.

He suggests that an Ordinance of Councils should be passed, supplementary to the Ordinance approved November 23, 1887 (Brightley's Digest, p. 300), in substance as follows:

“Amendment to Ordinance of November 23, 1887. All drain pipes or sewers built on undedicated streets shall be built in accordance with the regulations, specifications,

lines and grades, and inspection of the Bureau of Surveys, at the cost of the owners or builders, and accurate plans of location, size and elevation, shall be filed of record in said Bureau, without which, in case of sewers having been previously built, no street shall be placed on the City plan."

I have the honor to request that you will bring this matter to the attention of Councils, so that some action proper in the premises might be had by them.

Yours truly,

LOUIS WAGNER, *Director.*

DEPARTMENT OF PUBLIC WORKS.

Philadelphia, October 25, 1889.

JOHN ECKSTEIN, Esq.,

Secretary Committee on Finance.

DEAR SIR:—In reply to yours of the 23d inst., asking information about an ordinance entitled "An Ordinance to authorize the drawing of warrants for the balance of the salary and expenses of the Surveyor of the Eighth District for 1888," I beg to say that I wrote to Mr. Thos. M. Thompson, Chairman of Committee on Finance, on March 2, 1889, upon this subject as follows:

"When the Surveyor of the Eighth District was appointed to the place he holds he accepted the appointment upon the conditions of an ordinance entitled 'An Ordinance to fix the salaries of District Surveyors, and provide for expenses of office,' approved December 24, 1887, which says that the District Surveyors are to be paid a salary of \$3,000 per annum, 'provided that the fees earned in each district shall amount to the salaries over and above the expenses of the office.' The fees earned having been insufficient to pay the salary, I know of no reason why the City should make the appropriation asked for."

Ordinance returned, enclosed.

Yours truly,

LOUIS WAGNER, *Director*.

DEPARTMENT OF PUBLIC WORKS.

DEAR SIR:—On Monday last bids were opened for the construction of the sewer to be built to relieve the Cohocksink sewer, from Ninth and Norris streets, along the line of Norris street to East Susquehanna avenue, and on Susquehanna avenue to the Delaware river, the work being divided into five sections.

For sewer 8½ feet in diameter, per linear foot, including all appurtenances, the sum of twenty-three (23) dollars and forty (40) cents. For chamber at Ninth and Norris streets, including all appurtenances, the sum of eleven hundred (1100) dollars. For additional brick masonry, per cubic yard, in place, including all appurtenances, the sum of nine (9) dollars and seventy-five (75) cents. For additional rubble masonry, per cubic yard, in place, including all appurtenances, the sum of four (4) dollars and fifty (50) cents. For additional twelve-inch terra-cotta pipe, not in concrete, laid in place,

per linear foot, the sum of one (1) dollar and ten (10) cents. Time to complete, eight (8) months. Cost of contractor's work, thirty-eight thousand (38,000) dollars. Assessment bills, five hundred (500) dollars. Sureties, Dennis Mahoney, Tenth and Westmoreland streets, Philadelphia, and John B. Lukens, Hunting Park, Philadelphia.

By authority of Section 4, Ordinance Oct. 29, 1889, the Department of Public Works is authorized to make any changes in the property of the City on the line of these sewers. I would recommend that the Bureaus of Gas and Water be directed to act (the latter at once) under this authority, as the thirty-six inch pumping main at Beach street will be required to be changed, and also the two southern-most boilers at the Kensington Pumping station. Both these bureaus will be furnished with blue prints as soon as they can be prepared.

It would be well to notify the Union Passenger Railway Company, that the tracks on Norris street will have to be removed by March 1st, 1890, so that Contract No. 3 can be commenced at the same time as Contracts 4 and 5.

APPENDIX No. 94.

OFFICE CLERK OF QUARTER SESSIONS.

Philadelphia, November 18, 1889.

IN THE COURT OF QUARTER SESSIONS,

For the County of Philadelphia.

In the matter of the petitions of citizens for divisions of
the Twenty-fourth Ward.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—I herewith transmit to your Honorable
Bodies a certified copy of the whole record and proceed-
ing in the above matter.

BENJ. N. FAUNCE,
Pro Clerk Court of Quarter Sessions.

*To the Honorable the Judges of the Court of Quarter Sessions
of the City of Philadelphia.*

The petition of the undersigned respectfully represents,
That they are citizens and qualified electors of the Twenty-
fourth Ward of the City of Philadelphia; that said ward
has so increased in its population that it now far exceeds
that of any other of the wards of said City; that by its
increase that portion of the ward lying east of the centre
of Forty-fourth street or Belmont avenue [exclusive of that
part included in the West Park and also part of the
grounds of the Pennsylvania Hospital for the Insane], has
become almost entirely urban; while that part of said ward
west of the centre of said street is almost entirely suburban,
or is still used for farming purposes, making the interest
of each of said sections inharmonious with the interest of
the other section.

Your petitioners believe that if said ward were divided
into two wards by a line drawn through the centre of said
Forty-fourth street or Belmont avenue, from City avenue
to Market street, and erecting the western portion thereof

into a new ward, to be known as the "Thirty fourth Ward," the population of each of said wards would be more homogeneous than they are as united, and would be of advantage to both sections and to the City. They therefore pray that your Honors will make your decree, after the completion of the proceedings directed by the Act of Assembly in such cases made and provided, erecting that part of the present Twenty-fourth Ward lying west of the centre of Forty-fourth street or Belmont avenue, from City avenue to Market street, into a ward by the name and number of "Thirty-fourth Ward," to have and enjoy all the rights, powers, and privileges now enjoyed by the other wards of said City.

Your petitioners have herewith annexed a plan of said Twenty-fourth Ward as it now exists, and showing how the two wards will be if the new ward is erected as prayed for. And as in duty bound they will ever pray.

IN THE COURT OF QUARTER SESSIONS,

For the City and County of Philadelphia.

In the matter of the petition of the sundry citizens of the Twenty-fourth Ward praying for the division of the said Ward and the erection of a new Ward therefrom.

To the Honorable the Judges of the said Court.

We, the undersigned Commissioners to whom was referred the petition of certain citizens of the Twenty-fourth Ward praying for a division of said Ward, would respectfully report: That we met for the purposes of our appointment, were duly qualified according to law, and organized by the election of F. Carroll Brewster as Chairman.

Public notice was given by advertisement in the Public Ledger and in the Philadelphia Record, copies of which are hereto annexed. A subsequent meeting was held at Hancock Hall, Fortieth and Lancaster avenue, in said Ward.

Quite a number of the citizens of the ward attended this meeting, and all of them were accorded a full and free opportunity of expressing their opinion as to the advisability of dividing the said Ward.

All were of the opinion that the Ward ought to be divided, the interests of one end not being harmonious with the interests of the other end. The only difference was as to the best line for the division.

Several lines were proposed, and all of them were carefully examined, and the reasons for and against fully heard before deciding.

We have gone over the Ward in part, and noted the improvements that have been made, and those that are now going on.

After consideration, the line proposed by the petitioners, was adopted by us with a slight modification, rendered necessary by reason of Forty-fourth street not being laid out on the City plan, from Haverford street to Market street, through the grounds of the Insane Hospital.

It was shown that by the lines hereinafter mentioned the territory of the Twenty-fourth Ward would be about three and seventy-five one-hundredths square miles in extent, an area one and one-half times larger than the old City of Philadelphia, prior to consolidation.

The new Ward would contain nearly six square miles of area.

The taxable list of inhabitants east of the proposed line is ten thousand five hundred and sixty-five (10,565). The new Ward containing four thousand nine hundred and twenty-six (4,926).

We would, therefore, recommend that a division of said Ward be made by a line commencing at City avenue and Belmont avenue, thence to Haverford street, thence west to a new street, to be called Meadow street, laid out and intended to be opened through the grounds of the Pennsylvania Hospital for the Insane to Market street. The eastern portion of said Ward to retain the designation Twenty-fourth Ward; the western portion to be known as the Thirty-fourth Ward.

The boundaries of each of these Wards is shown upon the plan attached to the petition, and may be described as follows:

TWENTY-FOURTH WARD.

Commencing at the river Schuylkill and Market street, thence along the centre of the said Market street to a new

street, to be called Meadow street, laid out and intended to be opened through the grounds of the Pennsylvania Hospital for the Insane, thence along the centre of the said new street to Haverford street, thence along the centre of said Haverford street to Forty-fourth street, thence along the centre of the said Forty-fourth street and Belmont avenue to City avenue, thence along said City avenue to the river Schuylkill, thence to the place of beginning.

THIRTY-FOURTH WARD.

Commencing at the centre of Market street and a new street, to be called Meadow street, laid out and intended to be opened through the grounds of the Pennsylvania Hospital for the Insane, thence along the centre of said new street to Haverford street, thence along the centre of said Haverford street to Forty-fourth street, thence along the centre of Forty-fourth street and Belmont avenue to City avenue, thence along said City avenue to Cobb's creek, thence along the said Cobb's creek to the centre of Market street, thence along the centre of Market street to the place of beginning.

All of which is respectfully submitted.

APPENDIX No. 104.

Philadelphia, November 21, 1889.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Highways, to whom was referred the bill entitled "An Ordinance to confirm the action of the Department of Public Works in awarding contracts for repaving certain streets with sheet asphaltum, and authorizing the Mayor to execute the said contracts, and the City Controller to countersign warrants in payment for work done under the same," respectfully report: That the bill in question proposes to ratify the action of the Department of Public Works in awarding contracts for the repaving of the streets therein named under specifications different from those prescribed by the Ordinance of June 16, 1885 (Ordinances 1885, page 143), entitled "An Ordinance regulating the grading and paving of streets," and to authorize the Mayor to sign such of said contracts as have not been already executed.

The reasons given by the Director for departing from the Ordinance of 1885 are, that he considered that said ordinance relates only to the *paving* of streets, and not to *re-paving*, and that to have applied it to re-paving these streets would have resulted in work inferior in quality and at a greater cost than will be produced by the methods adopted.

The Ordinance of 1885 involves the making of a new foundation of sand or gravel, while the specifications adopted, being intended for old streets, with foundations compacted by many years' use, allows said foundations to remain and the pavements to be laid upon them. It goes without argument that such old foundations are better than the new ones would have been. From the best information your Committee has been able to gather, the laying of improved pavements upon the old street beds prevails in those cities in which the best methods of paving with asphalt obtains. Moreover, excavating the old hardened foundations would have involved an expense of about twenty-five cents per square yard, which the City would have had to pay.

The specifications, however, involved another change from the Ordinance of 1885, namely, in the substitution for a concrete base, of a broken stone base permeated with a distilled composition, together with a binder, also of stone mixed with composition laid between the base and the top coat of asphalt. This binder prevents the moving of the asphalt surface, being itself held in place by the rough base. It is clear to your Committee that this method both as to paving and repaving is superior to that prescribed by the Ordinance of 1885, and in the City of Washington, where great attention is given to this subject, it is now accepted as the most approved plan of asphalt paving.

The commencement of the work before the signing of the contracts, notwithstanding the Ordinance of July 5, 1877 (Ordinances 1877, page 200), seems to have grown out of the fact that the question as to the applicability of the Ordinance of 1885, did not arrive until after the contracts were awarded, and the lateness of the season rendered prompt action necessary.

Your Committee have no doubt of the right of Councils

to pass the Ordinance in question, and thus ratify what they originally had power to ordain. The only question seems to be one of propriety. It would doubtless have been wiser, had the matter been submitted to Councils in the first instance, when proper specifications could have been authorized, and the work progressed in the regular way. But under all the circumstances of the case, involving the doubt as to the applicability of the Ordinance of 1885; the securing of better pavements for the City at a lower price, and the making of proper payment for work done for the City, your Committee believe the interests of the City will be best subserved by the passage of the annexed Ordinance. They therefore approve the same, submit it for your consideration and ask its passage.

Elias P. Smithers (*Ch'n*), Samuel Crothers, Wm. Bardsley, A. Atwood Grace, A. E. Jones, Isaac Wilde, Isaac D. Hetzell, Edwin S. Stuart, W. McMurray, W. Thornton, J. M. Stratton, Edw. W. Patton, D. T. Jenks, William McMullen, O. M. Wilson, Peter Monroe, W. McCoach.

AN ORDINANCE

To confirm the action of the Department of Public Works in awarding contracts for re-paving certain streets with sheet asphaltum, and authorizing the Mayor to execute the said contracts, and the City Controller to counter-sign warrants in payment for work done under the same.

WHEREAS, some question has arisen as to whether the Department of Public Works has a right to make a distinction between the *paving* and *re-paving* of streets with sheet asphaltum, and

WHEREAS, the said Department, believing that the Ordinance of June 16, 1885, "regulating the grading and paving of streets," related to and applied only to the *paving*, and not to the *re-paving* of streets, accepted bids from the Vulcanite Paving Company, and awarded to the said Company contracts to re-pave Federal street from Passyunk avenue to Broad street, Mt. Vernon street, from Twelfth street to Broad street, Thirty-ninth street, from Walnut street to Filbert street, Summer street, from Sixteenth street to Eighteenth street, Thirty-seventh street, from

Chestnut street to Sansom street, Saunders avenue, from Filbert street to Lancaster avenue, and Filbert street, from Thirty-ninth street to Saunders avenue, with Trinidad sheet asphaltum top on broken stone base and binder, and Diamond street, from Second street to Tenth street and from Eleventh street to Broad street, with sheet asphalt and concrete base, retaining the old foundation, and

WHEREAS, it has been found that the foundation of streets already paved is superior to a newly laid foundation as provided in the said Ordinance, and

WHEREAS the cost of paving streets with sheet asphaltum as contained in said Ordinance is much greater than the method herein set forth, therefore

APPENDIX No. 116.

CITIZENS' MUNICIPAL ASSOCIATION OF PHILADELPHIA.

Philadelphia, November 27, 1889.

To the Presidents and Members of Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—The Citizens' Municipal Association of Philadelphia beg to call your attention to a proposed ordinance which they understand is now before your honorable bodies, entitled "An Ordinance to confirm the action of the Department of Public Works in awarding contracts for re-paving streets with sheet asphaltum, and authorizing the Mayor to execute the said contract and the City Controller to countersign warrants in payment for work done under the same," and we ask that you will give the same your careful consideration to the end that it may be defeated.

It is generally known that this Association, in the interest of the citizens and tax-payers, is now engaged in an effort to compel compliance with the ordinances of the city on the part of certain paving contractors who have violated the same, and that we have requested the City Controller to refuse to countersign warrants for their claims for the paving of Diamond, Federal and other streets, and have declared our purpose to contest payment of said claims in the courts.

The ordinance now before you is framed for the defence of the unlawful action of the Director of Public Works in his award of contracts for the said work, and is in its title and terms an admission of the correctness of the position taken by this Association.

If an Executive Officer of the City Government after having repeatedly violated City Ordinances, can have his violations condoned and legalized by the Councils of the city, with what show of justice can an observance of law be required of private citizens, and will they not be entitled to like exemption?

Is not such legislation derogatory to the dignity of your honorable body, and will not its effect be to promote lawlessness, and to bring our City Government into contempt of the people?

We therefore respectfully but earnestly protest against the passage of the said Ordinance.

On behalf and by direction of the Executive Committee of the Citizens' Municipal Association.

JOEL J. BAILEY,
Chairman.

WILLIAM M. SMITH, ESQ.,
President of Common Council.

DEAR SIRs:—At a meeting of the Board of Directors of the Philadelphia and Reading Terminal Railroad Company, held this day, the following action was taken:

“Resolved, That the Philadelphia and Reading Terminal Railroad Company request the City Councils to consent to the construction of the Terminal Railroad according to

the plans, copies whereof are enclosed herewith, subject to such conditions as are in harmony with the hereinbefore recited declarations of the Court upon this matter."

APPENDIX No. 144.

OFFICE OF THE MAYOR.

Philadelphia, December 10, 1889.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN—I have the honor to herewith transmit for your consideration a communication, which has my approval, from Louis Wagner, Director of the Department of Public Works, submitting a detailed statement of the amount required to meet deficiencies in the appropriation to the several Bureaus of that Department, also the total amount of unexpected balances which could be made available in providing in part for the deficit, and requesting of your Honorable Bodies the necessary appropriations and transfers.

I am, respectfully,

EDWIN H. FITLER, *Mayor.*

DEPARTMENT OF PUBLIC WORKS.

Philadelphia, December 30, 1889.

HON. EDWIN H. FITLER,
Mayor of Philadelphia.

DEAR SIR:—I have the honor to submit herewith a statement of moneys required to meet deficiencies in the several Bureaus of this Department.

The deficiency in the Bureau of Gas arises from the fact that a year ago, in reporting the appropriations for the year 1889, and to enable the amount appropriated to come within the limit of the law, one hundred and fifty thousand (150,000) dollars was deducted from the item of wages, and ninety thousand (90,000) dollars from the item of coal, with the expectation that additional appropriations, if needed, could be made at the end of the year. By strict economy and the saving made because of gas purchased from the Philadelphia Gas Improvement Company, but eighty-two thousand (82,000) dollars is needed, —thirty-seven thousand (37,000) dollars for wages, forty-five thousand (45,000) dollars for gas to be purchased from the Philadelphia Gas Improvement Company, and nothing

for coal. If the forty-five thousand (45,000) needed to pay for gas to be purchased from the Philadelphia Gas Improvement Company, during this month, is not appropriated, it will be necessary to manufacture this gas at a cost of forty thousand (40,000) dollars for wages and fifty thousand (50,000) dollars for material.

The deficiency in the Bureau of Highways is caused principally by the unprecedented rain storms of the year, which have washed out and utterly destroyed a good deal of the work done during the year, and also an expenditure of over fifty-four thousand (54,000) dollars for the breaking of main sewers.

In the Bureau of Surveys the deficiency is caused by similar reasons, the breaking of the main sewers on Willow street, Germantown avenue and Thompson street, amounting to over forty-two thousand (42,000) dollars.

The deficiency in the Bureau of Water is caused by the increased pumpage, leaving a short appropriation for the item of fuel, and also because of the large amount of pipe ordered laid, leaving the item of maintenance and improvement to distribution insufficient.

The total amount needed is two hundred and thirteen thousand three hundred and eighty-one and 83-100 (213,381.83) dollars.

By gathering up all the unexpected balances to the credit of the various items in this Department, the sum of one hundred and seventeen thousand seven hundred (117,700) dollars can be realized. Many of these items, however, ought to be carried over for unfinished work to be done during the coming year, and it is simply a question whether it were better to meet the deficiencies this month and carry over the balances for the work ordered but not contracted for, or whether the balances had better remain and the deficiency be paid out of next year's appropriation. Practically there is no difference in the results, and it is simply a question as to the best mode of procedure.

I have the honor to request that you will ask Councils to consider this matter, and make the appropriations and transfers necessary for the work.

Yours, truly,

LOUIS WAGNER, *Director*.

APPENDIX No. 152.

Philadelphia, December 3, 1889.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN: — We, your Committee on Surveys, to whom was referred the accompanying ordinance to place Union street on the City plan, beg leave to report, that the heavy traffic passing over Delaware avenue and by Water street, and by the neighboring streets rising towards Fourth street, will find an easier ascent by prolonging Union street, from Front street to Delaware avenue.

Your committee have been attentive to secure as great width as practicable, and to fix the lines of the street to coincide with boundary lines of properties to lessen the costs so often entailed from too strict an adherence to straight lines, the result being exhibited upon the accompanying plan.

There can be no question as to the public advantage in the passage of the ordinance, which we recommended accordingly.

Thomas L. Hicks (*Ch'n*), Geo. L. Horn (for report), Chas. W. Savidge, Jos. H. Brown, W. H. James, Thos. Wagner, Jr., James Kenton, O. M. Willson, John B. Dallas, W. Thornton, F. M. Harris, Wm. P. Becker, Frank Schanz, L. W. Moore, W. McCoach (for report).

AN ORDINANCE

To place Union street upon the City plan.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Public

Works be, and is hereby authorized, to place upon the City plan Union street, from Front street to Delaware avenue, to be substantially as laid down on a plan attested by the Chairman of the Committee on Surveys, which plan shall be filed in the Bureau of Surveys before the ordinance shall be of effect.

APPENDIX No. 153.

Philadelphia, December 3, 1889.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, and to whom was referred the accompanying ordinance to revise the lines of Walnut street, between Fifth street and Delaware river, beg leave to report that the Ordinance to fix the width of Walnut street, and the confirmation by the Board of Surveys of the plan in accordance therewith, were too late to prevent the erection of some of our finest buildings on the fifty (50) feet line. To allow these to remain, and to compel others now projected to be set back to the sixty (60) feet line, will not be of the slightest remedial effect, and will make the street ugly as well as narrow.

Fortunately, the mischief is confined to eastward of Fifth street, and your committee report the Ordinance to fix the lines of the street to suit the buildings, with a favorable recommendation.

Thomas L. Hicks (*Ch'n*), George L. Horn, Chas. W. Savidge, Jos. H. Brown, D. C. Cleaver, W. H. James, Thos. Wagner, Jr., James Kenton, O. M. Willson, John B. Dallas, W. Thornton, F. M. Harris, Wm. P. Becker, Frank Schanz, L. W. Moore, W. McCoach.

AN ORDINANCE

To revise the lines of Walnut street, between the Delaware river and Fifth street.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain, That the Department of Public*

Works be authorized and directed to revise the lines of Walnut street, between the Delaware river and Fifth street, so as to make said street between the points named conform to the lines of the buildings now erected, and of the width of fifty (50) feet.

APPENDIX No. 154.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the accompanying ordinance to revise the lines and grades on Plan No. 230, in the twenty-first Ward, beg leave to report, that this section was first surveyed thirty years since, and that surveys considered with reference to the present value of the land must be made with much greater precision of angular and linear measurement; many of the land marks are now obliterated, and it will be to the public interest to re-survey and revise this section. We therefore return the ordinance with a favorable recommendation.

Thomas L. Hicks, (*Ch'n*), Geo. L. Horn, Chas. W. Savidge, Jos. H. Brown, Chas. F. Iseminger, D. C. Cleaver, W. H. James, Thos. Wagner, Jr., James Kenton, O. M. Willson, John B. Dallas, W. Thornton, F. M. Harris, Wm. P. Becker, Frank Schanz, L. W. Moore, W. McCoach.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys to whom was referred the accompanying ordinance to place Twenty-fifth street, from Berks to Diamond street, on the City

plan, beg leave to report that this is a main City street, and is essential to the City plan. As it covers part of the ground of two cemeteries, the Greenwood and The Odd Fellow's, and as dedication may not be within the powers of the companies owning these cemeteries, we have thought it best to restrict the proviso as to dedication to the case of individual owners.

Thomas L. Hicks (*Ch'n*), Geo. L. Horn, Chas. W. Savidge, Jas. H. Brown, Chas. F. Iseminger, D. C. Cleaver, W. H. James, Thos. Wagner, Jr., James Kenton, O. M. Willson, John B. Dallas, W. Thornton, F. M. Harris, Wm. P. Becker, Frank Schanz, L. W. Moore, W. McCoach.

GENTLEMEN:—The Committee on Gas respectfully report that they have considered a resolution in relation to the investigation of the new process for the manufacture

To the Chairman and Members of the Gas Committee
of Select and Common Councils.

GENTLEMEN : — Your Special Committee, to whom was re-committed the resolution, report an ordinance regarding the investigation of the new process for the manufacture of illuminating gas under the Toraya Process, for the purpose—in conjunction with the Director of the Department of Public Works—of ascertaining the time and works best adapted for the experiment and demonstration suggested in the first report of your committee, beg leave to report :

Your committee, after conference with the Director of Public Works, visited the gas works located at Manayunk. Mr. Matthews, the superintendent of the said works, met your committee, and accompanied them through said works. By reason that the gas-pipes connected with said works can be completely isolated and cut off from any connection with the gas manufactured in the other City works, and the smallness of the plant, your committee are unanimously of the opinion which is further strengthened by the suggestion of the Director of Public Works that the Manayunk Gas Works is the proper place, and the one best adapted for the trial and demonstration of the manufacture of illuminating gas under the said process, and that the time when said works shall be delivered to the said company for the purpose of carrying into effect the suggestions of your committee, with reference to the manufacture of their gas, shall be, on or before the fifteenth day of April, A. D., 1890.

Your committee having reconsidered the ordinance ac-

companying their former report, beg leave to submit the annexed Ordinance bearing sundry amendments that have been made in conformity with the suggestions of the Director of Public Works after their conference with him, all of which is respectfully submitted.

SECT. 2. He is also authorized to pay for so much of the gas so manufactured under this permit, as he may deem necessary to enable him to make the report as called for in this section: *Provided*, He shall be satisfied with the quality and general condition of said gas: *And provided further*, That the cost to the City for the gas so delivered shall not exceed the sum of forty-five (45) cents per thousand cubic feet, delivered in the said holders of said works. The said Director of the Department of Public Works to be the judge of the quantity of gas necessary to be manufactured and delivered as will enable him to make the required report; the cost of the gas so delivered shall be paid for out of Item 4 of the annual appropriation to the Department of Public Works (Bureau of Gas): *Provided, also*, That the said Toraya Patent Gas Company shall give a bond in a sum sufficient to indemnify the City from any loss. GENTLEMEN:—We, your Committee on Surveys, to whom was referred the accompanying ordinances to reconstruct the sewer on Levering and Cresson streets, beg leave to report that this sewer shows signs of decay, and has been broken many times within a short period. Thomas L. Hicks (*Ch'n*), W. McCoach, L. W. Moore, Chas. F. Iseminger, Geo. L. Horn, D. C. Cleaver, S. A. Fleming, Chas. W. Savidge, Jos. H. Brown, W. H. James, James Kenton, John O. Taxis, John B. Dallas.

GENTLEMEN:—Your Committee on Surveys, to which was referred “An Ordinance to make an appropriation to Robert Higgins for the construction of a sewer on Saunders avenue, from Powelton avenue to Lancaster avenue,” respectfully report that the contract for this sewer was made upon the estimate of all the property being assessable. It appears that the Old Men’s Home and the Pennsylvania Home for Blind Women, both of which institutions front on this street, are public charities, and therefore exempt from taxation, and no bills could be made against these properties on this account. Your Committee regard this as an equitable claim, and it should be paid. We therefore ask the passage of the annexed ordinance.

APPENDIX No. 226.

Philadelphia, January 23, 1890.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—The Committee on Municipal Government, to which was referred the subject of locating small parks throughout the City of Philadelphia, respectfully report that they received the annexed report from the Sub-Committee to which was referred the above subject, and in pursuance of said report respectfully recommend the passage of the annexed ordinance, entitled “An Ordinance to select as public parks and place on the City plan Wharton Square and Girard Park, in the Twenty-sixth Ward.”

Andrew Zane (*Ch'n*), Thos. M. Hammett, Thomas Meehan, Thos. Wagner, Jr., W. Thornton, John E. Hanifen, W. McMurray, C. Oscar Beasley, B. J. Green, Thos. Green, Chas. Roberts, W. H. Baker, A. Jackson Hook, David Klein, Ernest H. Davis.

To the Chairman and Members of the
Committee on Municipal Government.

GENTLEMEN:—Your Sub-Committee on Small Parks respectfully report that the earlier work of Councils was based on the plan of plotting a number of localities at once, to be taken gradually in after years, as the financial ability of the City might warrant. It is found by experience

that the people at large feel these open spaces a greater immediate want than Councils could have supposed, for no sooner are plots located than great pressure is brought to bear on the municipality to purchase them.

They recommend as the best policy for the City to pursue, the location of a few every year, and not beyond the probable ability of the City to secure without financial stress. Several years ago the City inaugurated the policy of spending annually a considerable sum for the improvement of the older squares, and this expenditure can now be continued in the purchase of new ones.

Unforeseen delays having prevented the purchase of but one of those located last year, the Sub-Committee have not thought wise to recommend a very large addition this year—the most costly being Wharton Square, in the Twenty-sixth Ward. Though this is less than four acres, it is in a section being rapidly improved, and where small park plots will soon be an impossibility, and in a section of the City referred to in the Mayor's message as being especially in need of these open spaces.

Should all those recommended by the Committee not be sustained by Councils, this one at least should be retained in the list.

The Sub-Committee recommend that this report and annexed ordinance be returned to Councils favorably.

Thomas Meehan (*Ch'n*), Chas. Roberts, W. H. Baker.

AN ORDINANCE

To select as public parks and place on the City plan Wharton Square and Girard Park, in the Twenty-sixth Ward.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the plot of ground situated in the Twenty-sixth Ward, bounded by Wharton, Twenty-third, Reed and Twenty-fourth streets, as now laid out and shown on plan No. 164, on file in the Bureau of Surveys, containing three and eighty-one one-hundredths (3 81-100) acres, to be known as *Wharton Square*. Also, the plot of ground, in the same ward, bounded by Porter, Twentieth and Twenty-third streets, and Penrose and Oregon avenues, as now laid out and shown on plan No. 203, on file in the Bureau of Surveys, containing an area

of about seventeen and five one-hundredths (17 5-100) acres, to be known as Girard Park, are hereby selected for open public places or parks for the health and enjoyment of the people forever, as required by the Act of February 2, 1854, and the Director of the Department of Public Works is hereby authorized and directed to place said parks as above described on the City plan.

APPENDIX No. 227.

Philadelphia, January 23, 1890.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—The Committee on Municipal Government to which was referred petition of citizens of the Twenty-fourth Ward asking to have “Riverview square placed on the public plan as an open space,” respectfully report that they referred the same to the Sub-committee on Small Parks (whose report is hereto appended) and in pursuance of said report, respectfully recommend the passage of the accompanying resolution.

Andrew Zane (*Ch’n*), Thos. M. Hammett, Thomas Meehan, Thomas Wagner, Jr., W. Thornton, John E. Hanifen, W. McMurray, C. Oscar Beasley, B. J. Green, Thos. Green, Chas. Roberts, W. H. Baker, A. Jackson Hook, David Klein, Ernest H. Davis.

To the Chairman and Members of the
Committee on Municipal Government.

GENTLEMEN:—Your Sub-committee to whom was referred the petition of citizens of the Twenty-fourth Ward, asking to have “Riverview” square placed on the public plan as an open space, respectfully report that they have visited the locality and find that it is separated from Fairmount Park by the Pennsylvania Railroad, with which it will be connected by the new bridge over Thirty-fourth street. If it were simply an open space, its proximity to Fairmount Park would render its being placed on the plan

injudicious, but it presents a longitudinal view of the Schuylkill river unequalled by anything in the Park, and which it is well worth while preserving to the public forever. As the plot is only about two acres, the cost could not be much, while the increased value given to the surrounding property would in a great measure reimburse the City.

A plot on the opposite or west side of Thirty-fourth street, of about one acre, has been dedicated to the City, as your Sub-committee is informed, by the general agent of the Pennsylvania Railroad owning the strip, rendering it the more desirable that the City should own the corresponding strip. Its proximity to the present park lines, however, would render its care and improvement much better economy by the Park Commissioners, than by a separate purchase and management by the City.

They, therefore, recommend this report and accompanying resolution be transmitted to Councils.

Thomas Meehan (*Ch'n*), Chas. Roberts, W. H. Baker.

DEPARTMENT OF PUBLIC WORKS.

Philadelphia, December 24, 1889.

THOMAS MEEHAN, ESQ.,

Common Councilman Twenty-second Ward.

DEAR SIR:—I have examined the proposed location for Riverview Park, and send herewith an official plan with the lot described by you marked thereon.

If any ground is to be taken there, it should extend also to include the triangle bounded by Thirty-fourth street, Mantua avenue and Pennsylvania Railroad, westward of Thirty-fourth street to Thirty-sixth street, which should be densely planted to shut out the railroad from the street, and constitute a part of Fairmount Park, and without the additional name of Riverview.

Yours, truly,

SAM'L L. SMEDLEY,
Chief Engineer and Surveyor.

RESOLUTION

Of request to the Commissioners of Fairmount Park to consider the propriety of adding Riverview Square or Park and plot of ground owned by the Pennsylvania Railroad Company to the present area of Fairmount Park.

Resolved, by the Select and Common Councils of the City of Philadelphia. That the petition of citizens to have the plot styled Riverview Park or Square be forwarded to the Commissioners of Fairmount Park, with the request that they consider the propriety of adding the tract, together with the plot donated, or proposed to be donated, by the Pennsylvania Railroad Co., to the present area of Fairmount Park, under the powers granted them by the Act of 27th of January, 1870.

APPENDIX No. 228.

Philadelphia, January 23, 1890.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—The Committee on Municipal Government, to which was referred “Resolution regarding the occupancy of a large portion of the Almshouse Park grounds by a railroad company,” respectfully report that they referred the same to the City Solicitor (whose opinion is hereto attached). Your Committee respectfully recommend the passage of the annexed resolution.

Andrew Zane (*Ch’n*), Thos. M. Hammett, Thomas Meehan, Thos. Wagner, Jr., W. Thornton, John E. Hanifen, William McMurray, C. Oscar Beasley, B. J. Green, Thos. Green, Chas. Roberts, W. H. Baker, A. Jackson Hook, David Klein, Ernest H. Davis.

LAW DEPARTMENT OF THE CITY OF PHILADELPHIA.

Philadelphia, December 12, 1889.

THOMAS MEEHAN, ESQ.,

Chairman of Sub-Committee on Municipal Government.

DEAR SIR:—I am in receipt of your communication enclosing the following resolution:

“Resolved, by the Select and Common Councils of the City of Philadelphia, That the City Solicitor be requested to inform these bodies in what manner the Pennsylvania Railroad Company obtained possession of certain property in the Twenty-seventh Ward, known as the Almshouse property, and for what consideration, and what steps should be taken to protect the City’s interests in the matter.”

In answer I would say, that the lot of ground referred to is included within the curved tracks of the Philadelphia and West Chester Railroad, the Delaware extension of the Pennsylvania Railroad, and the curve upon which is built the southern track connecting the two railroads, which is part of the Almshouse ground.

The property was put up at public sale under Ordinance of January 11, 1882, and under Ordinance of April 4, 1882. The transfer was authorized to the Pennsylvania Railroad Company, upon condition that the railroad company should agree to build a bridge over Thirtieth street whenever it is required for public use.

I am informed that the Pennsylvania Railroad Company refused to accept the conditions of the sale, and that they claim to have taken the ground by right of eminent domain. Upon searching the records in the office of the Recorder of Deeds, I find no conveyance of the property above named from the City of Philadelphia to the Pennsylvania Railroad Company.

If they claim the right to occupy the property by right of eminent domain, a jury should be appointed to ascertain the value of the property so taken. If the property is otherwise unlawfully occupied, an action of ejectment or trespass will lie.

Awaiting your instructions in the matter,

I am, yours very truly,

CHAS. F. WARWICK,
City Solicitor.

RESOLUTION

Regarding the occupancy of a portion of the Almshouse Park grounds by the Pennsylvania Railroad Company, and of request to the Mayor relative thereto.

Resolved, by the Select and Common Councils of the City

of *Philadelphia*, That the Mayor of the City be authorized and requested to inform the proper officials of the Pennsylvania Railroad Company that, under information from the City Solicitor, no settlement has been made by the company for land taken from the Almshouse Park, and that he invite proposals for settlement with them. If the Mayor shall receive proposals that he regards as fair and reasonable, he shall report to these Councils. If he do not consider the proposals reasonable, he shall report the fact to the City Solicitor, who is hereby authorized and directed to apply to the courts for a jury to assess the value of the property and damages to be paid to the City.

APPENDIX No. 229.

Philadelphia, January 23, 1890.

To the President and Members of the Select
Council of the City of Philadelphia.

GENTLEMEN:—The Committee on Municipal Government to which was referred the portion of the Mayor's message recommending the early completion as a pleasure ground a portion of the Almshouse grounds lying along the west bank of the Schuylkill river and below South street, set apart as a public park, respectfully report that they referred the same to the Sub-committee on Small Parks (whose report is hereto appended), and in pursuance of said report, recommends the passage of the accompanying resolution.

Andrew Zane (*Ch'n*), Thos. M. Hammett, Thomas Meehan, Thos. Wagner, Jr., C. Oscar Beasley, W. Thornton, John E. Hanifen, William McMurray, B. J. Green, Thos. Green, Chas. Roberts, W. H. Baker, A. Jackson Hook, David Klein.

To the Chairman and Members of the
Committee on Municipal Government.

GENTLEMEN:—Your sub-committee to whom was referred the annexed portion of the Mayor's message to Councils found that nearly twenty acres of the grounds were in

the possession of railroad companies, completely separating the river front from the rest of the plot, and rendering all east of the railroad tracks unsuited to Park purposes. The ground west of the track is chiefly used as garden ground by the Almshouse, and should continue so till the Almshouse is removed. The river front portion, cut off by the railroad tracks, will be unsuited to Park uses, and would be better eventually sold for business purposes, or improved by wharves to be rented for revenue to the City. In either case the proposed wall would be useless.

They recommend that a negative report be made to Councils, with the annexed resolutions.

Thomas Meehan (*Ch'n*), W. H. Baker, Chas. Roberts.

FROM MESSAGE OF THE MAYOR.

Referred to the Committee on Municipal Government.

“A portion of the Almshouse grounds lying along the west bank of the Schuylkill, and below South street, has been set apart by your honorable bodies several years ago as a public park. Its early completion as a pleasure ground is due to the large number of citizens residing on both sides of the river, and particularly to those residing in the closely built-up section east of the river. A commencement of this work should be made at once by the construction of a *retaining wall along the river front*,—the stone for the same could be quarried and the wall erected by the inmates of the House of Correction.”

RESOLUTION

Of instruction to the Committee on City Property relative to ground set apart for Almshouse Park, and discharging the Committee on Municipal Government from the consideration of the subject.

Resolved by the Select and Common Councils of the City of Philadelphia, That the Committee on City Property be, and they are hereby instructed to keep in view the probability of the portion of the ground set apart for the Almshouse Park east of the railroad tracks being used

eventually for business purposes, whenever any measures may be suggested for the improvement of the same: *Resolved*, That the Committee on Municipal Government be, and they are hereby discharged from the consideration of the Mayor's message recommending the early completion as a pleasure ground a portion of the Almshouse grounds lying along the west bank of the Schuylkill river.

T. Jenks, Chas. F. Iseminger, Edw. W. Patton, Charles E. Webster, Edward A. Anderson, J. Raymond Claghorn.

Philadelphia, January 30, 1890.

To the Chairman and Members
of the Joint Committees on Finance and City Property.

GENTLEMEN:—Some time past, you referred to a sub-committee the matter of the presentation by Mr. John Baird to the City of Philadelphia of an elaborate model of the Centennial Exhibition, held at Fairmount Park in 1876.

Your committee held a meeting at the office of the Mayor, had the donor of the model, Mr. Baird, the Hon. Edwin H. Fitler, Mayor, and Mr. Theodore C. Search, Manager of the Pennsylvania Museum and School of Industrial Art in Fairmount Park, present.

At this meeting the question of deciding upon a suitable location for the gift, to recommend to you, was freely discussed, and the result of our conclusions is herewith presented.

Mr. Baird favored the idea of having the City to erect on the site of the Main Exhibition Building, in the West Park, an edifice especially adapted to the showing of the model, but at the same time, said that he was thoroughly satisfied to leave the matter with the City authorities.

Mr. Search, when questioned as to placing the model within Memorial Hall, said that there was ample room for it, and he felt that it was a suitable place for it. He had not consulted with his associate managers, but could not see that any objections should be offered to placing the model within the walls of a building designed and constructed as a memorial to the Centennial.

It was suggested during the conference that either Independence Hall, or our New City Building at Broad and Market streets, being both central and convenient of access for the people, would be better places for the model than at the Park.

Your Committee considered both suggestions, and whilst admitting of the fact that the positions are central, there are objections which are thoroughly tenable. The Hall of Independence is a national treasure, a temple commemorative of liberty and a veritable model of the architecture of more than a century ago. It is designed to mark the historic spot where liberty was first proclaimed, and within its portals to collect and exhibit to the people relics bearing particularly upon the events of that interesting period of the country. The New City Hall was designed and destined for municipal purposes, and in its unfinished condition it was dismissed as a place for the exhibition of the gift. The construction of a building especially for the reception of the model, would be attended with a considerable outlay and expense in maintaining it. It would be an attraction simply within itself, and we believe that it is inadvisable.

Memorial Hall, constructed as it was to commemorate the Centennial—with ample rooms, light and heat, under a management selected by State and municipal authori-

ties, seems to us to be the most appropriate and suitable of any, and to that end we have decided to recommend that the model should be placed therein. We therefore present to you for your consideration and approval the accompanying resolutions, one accepting the gift from Mr. John Baird, the other providing for it a resting place in Memorial Hall. In presenting the statement, your Committee have had in view the magnitude and importance of this most valuable souvenir, and the thoughtfulness and liberality of Mr. Baird, who has shown himself to be a benefactor, not only to those who were visitors to the now memorable and historic exhibition, but to the thousands who have no knowledge of its vastness and grandeur.

Mr. Baird, who conceived and formulated the idea of commemorating the grand event and planned and built the model, was one of the foremost active workers in the Centennial cause. His energy, money and time he freely gave. He was a member of the Board of Finance of the Centennial Exhibition, and from the beginning to the end gave his time and labor without stint, and to such men we are indebted for its great success. In later years, he observed that the time was not far away when but few could remember the vast collection of buildings and the splendor of the scene commemorative of the first century of the United States of America. It was then that he conceived the thought of perpetuating it by the means of a realistic model sufficient in size to show every building and its location within the grounds, as well as the bridges, drives, walks and railroads, and other things of interest, whether stationary or moving. The model was shaped and executed under Mr. Baird's personal directions, of material mostly indestructible, by artists familiar with the scene. The liberality and forethought of Mr. Baird is entitled to the highest consideration, as such a gift can never be replaced.

We, therefore, recommend the adoption of the following resolutions: First, "Resolution of thanks to Mr. John Baird for his gift to the City of Philadelphia of the model commemorative of the Centennial Exhibition of 1876, and to suspend Joint Rule 4 of Select and Common Councils."

Second, "Resolution to authorize the placing in Memorial Hall of the model of the Centennial buildings and grounds presented to the City by Mr. John Baird."

Your Committee further recommend that an appropriation of five thousand (5,000) dollars be made for the purpose of constructing a case and stand to secure the preservation of the same.

Thos. M. Hammett (*Ch'n*), Edward W. Patton, Edward A. Anderson, J. Raymond Claghorn.

RESOLUTION

Of thanks to Mr. John Baird for his gift to the City of Philadelphia of the model commemorative of the Centennial Exhibition of 1876, and to suspend Joint Rule 4 of Select and Common Councils.

WHEREAS, Mr. John Baird has presented to the City of Philadelphia a model of the grounds and buildings as they existed during the memorable and historic exhibition commemorative of the first Centennial of our national existence, held at Fairmount Park, Philadelphia, in 1876, And

WHEREAS, Mr. Baird has by this most liberal and generous act conferred upon those living at the time of the Exhibition, as well as after generations, a lasting memorial of the Centennial Exhibition, demonstrating his unselfish and patriotic impulses and desire to commemorate such an event, It it therefore,

Resolved by the Select and Common Councils of the City of Philadelphia, That the model of the Centennial grounds and buildings, portraying in a most realistic form the memorable scene of 1876, be and the same is hereby accepted, and the thanks of the patriotic people of this historic City be, and the same are hereby tendered to Mr. Baird for his most thoughtful, artistic and beautiful commemorative souvenir.

Resolved, That these preambles and resolutions be suitably engrossed in such form as will best suit Mr. Baird, and to this end the Committee be, and it is hereby authorized to have the same done and presented to him.

Resolved, That Joint Rule 4 of Select and Common Councils be and the same is hereby suspended for the purpose of enabling the Clerks of Councils to present these resolutions to the Mayor for his approval.

RESOLUTION

To authorize the placing in Memorial Hall of the model of the Centennial Buildings, and Grounds presented to the City by Mr. John Baird.

Resolved, by the Select and Common Councils of the City of Philadelphia, That the model of the Centennial Grounds and Buildings presented to the City by Mr. John Baird, be placed in Memorial Hall, and that the Managers of the Pennsylvania Museum and School of Industrial Art be and are hereby requested to prepare a place within Memorial Hall for the reception and exhibition of the said model.

Receipts.

The receipts from departments and items for 1888 show an increase of \$856,956.17. This increase includes a temporary loan from the Commissioners of the Sinking Fund of \$250,000 and \$177,625, derived from the sale of securities held by the City Treasurer, a part of the surplus of Gas Loan No. 9, and \$331,707.83 paid to the City Treasurer as the proceeds of the sale of land in the Twenty-seventh Ward, adjoining the present Almshouse property.

This latter sum is a part of the cash in the Treasury, but, under an Act of Assembly, it is ear-marked, and can only be used for the erection of a new almshouse.

The revenue of 1889 was largely derived from a tax rate of \$1.85 on a property valuation of \$669,507,564, and by receipts from the Departments, particularly by those from the Bureaus of Gas and Water, and from licenses to sell liquor at retail.

The tax levy of 1889 was \$11,918,748.35; of this amount, \$11,314,303.72 was collected, leaving a balance to register (allowing for penalties and discounts) of \$605,186.65, or about 5 per cent. of the tax levy uncollected.

The tax levy of 1888 was \$11,515,694.57; of this \$11,021,730.66 was collected, leaving a balance to register (allowing for penalties and discounts) of \$495,406.12, or about $4\frac{3}{16}$ per cent. of the tax levy uncollected.

During the year 1889 the taxpayers were allowed \$56,401.11 in discounts; the City received in penalties \$57,143.13.

There was an increase in the amount of delinquent taxes collected in 1889 over 1888 of \$11,348.40.

For the past seven years the delinquent taxes were collected as follows:

1883.....	\$747,143 50
1884.....	651,948 03
1885.....	732,821 94
1886.....	736,431 34
1887.....	729,152 44
1888.....	738,935 38
1889.....	750,283 78

The estimated deficit in the statement sent from this department on the first of last September of \$451,709.17, is now, by a comparison of the actual receipts and expenditures of the year, shown to be an actual deficit of \$783,007.53.

This estimated deficiency of \$451,709.17 now proves to have been correct, were it not for the fact that \$331,298.36, the proceeds of the sale of almshouse property, was treated as a part of the general revenue of the City, whereas it is a special fund, which, under the provisions of an Act of Assembly, is only available for the purpose of the purchase of land and the erection of a new almshouse. It must be borne in mind that this fund is still in the City Treasury, but, as a matter of bookkeeping, it is now charged as a liability against the general cash balance.

The result to be attained by a calculation under the directions of the Act approved June 11, 1879, must always depend in a large degree upon the accuracy of the estimates of receipts furnished by the departments of the City; upon the amount required to meet the demands upon the City Treasury by mandamus executions to pay the judgments obtained in the several courts; the amount required for fixed charges, and the amount of money directed by Councils *not to merge*, whether it be under contract or not.

The anticipated deficiency contained in the statement of September 1, 1889, was an *estimated* deficiency only, and it was computed in accordance with the provisions of the Act of Assembly, approved June 11, 1879.

As an evidence that the estimated deficiency or surplus thus calculated cannot be accurate, permit me to call your attention to the result of a comparison of the estimates set out on the statements of September 1, and the actual result at the close of the year for the past six years.

ESTIMATE.			ACTUAL.		DIFFERENCE
Date.	Deficiency.	Surplus.	Deficiency.	Surplus.	
September, 1884...	\$63,841 54	\$417,926 27	\$354,084 73
September, 1885...	504,001 58	281,972 44	222,029 14
September, 1886...	\$542,032 08	\$98,261 28	443,770 80
September, 1887...	328,024 93	265,137 34	593,162 27
September, 1888...	167,217 00	19,172 70	148,044 30
September, 1889...	451,709 17	783,007 53	331,298 36

The amount paid during the year upon mandamus executions for land and other damages and claims is unusually large; it amounts to \$463,827.74. No appropriation or provision was made by Councils for the payment of this large sum of money; I have, however, inserted in the list of legal liabilities the sum of \$200,000 for this purpose for 1890.

The amounts not merging, either because of an existing contract or by direction of an ordinance of Councils, are also large. For the past three years the amounts thus not merging were:

1887.....	\$1,100,677 07
1888.....	1,355,859 57
1889.....	1,482,431 76

Of these amounts, in 1888 the sum of \$482,194.44 was not under contract, and in 1889 the sum of \$269,887.85 was not under contract.

Had Councils permitted the balances of the appropriations of last year, which were *not under contract*, to merge, they could have been appropriated for the current expenses of 1890, and thus greatly have reduced the deficiency of the past year.

There was an increase of revenue over the previous year in the following Departments and items:

Current taxes.....	\$292,573 06
Delinquent taxes.....	13,732 02
Bureau of Correction.....	2,435 09

Disbursements.

In 1889, the disbursements were \$956,410.39 more than the disbursements of 1888.

During the year 1889, \$777,987.09 of the warrants of previous years were paid.

For Departments, including the Public Buildings, there was paid \$15,283,390.60. If to this be added \$772,368.61 warrants countersigned during 1889, and yet outstanding, the total cost of the Departments, including Public Buildings, for the year 1889 will be \$16,055,759.21, an increase over 1888, of \$1,497,336.21.

The cost of Departments, exclusive of Public Buildings, was \$15,305,109.55.

The amount paid for mandamus-executions in 1889, was \$463,827.74.

The following statement exhibits the appropriations to the Departments in 1889, including the balances carried into the books of 1889, from the books of 1888 :

Appropriated.	Countersigned.	Merging.	Not merging.
\$17,957,341 11	\$16,055,759 21	\$419,150 14	\$1,482,431 76

The estimated receipts for the year 1889, as computed upon the average of the five preceding years, was, as per statement of the Controller presented to Councils September 1, 1888, \$19,698,086.88.

The actual receipts were \$20,529,146.71, an excess of \$831,059.83.

The average annual amount of taxes collected within the year, based upon the collections of the five years preceding 1889, and computed upon the proportion of a \$1.85 tax rate, was as set forth in the same statement, \$11,247,126.88.

The amount actually collected in 1889 was \$11,314,303.72, which exceeds the statement by only \$67,176.84.

The revenue other than current taxes, was \$9,214,842.97.

The average for the past five years, as shown by statement, was \$4,941,503.58, showing an increase of \$4,273,339.39.

Increase over estimate of revenue other than current taxes.	4,273,339 41

But it must be remembered that the income from gas (\$3,658,295.09), liquor licenses (\$480,308.00), amounting to (\$4,138,603.09), did not enter into the averages as computed in the statement, as the City not being in possession of the gas works prior to April 1, 1887, and the receipts from liquor licenses having been paid only since 1888, while the average as provided by the Act of Assembly is computed upon the basis of the preceding five years.

Outstanding Warrants.

The outstanding warrants remaining unpaid are of the following years:

1884	\$ 675 50
1885	2,613 13
1886	2,692 28
1887	5,660 12
1888	6,440 19
1889	772,368 61
Total	<u>\$790,449 83</u>

At the close of each year there are a large number of warrants signed that do not reach the Treasury until the early part of the new year; hence, for that year, the outstanding warrants make up the bulk of the entire amount unpaid.

The number of warrants countersigned during the year 1889 was 100,610, an increase of 2,668 over 1888.

Funded Debt and Outstanding Warrants.

The funded debt and outstanding warrants, January 1, 1890,	<u>56,777,370 06</u>
Decrease of	<u>\$1,165 563 04</u>

As stated, there has been a decrease in the total debt of the city since January 1, 1889, of \$1,165,563.04.

The funded debt of the city has been reduced \$1,159,175; the difference between the entire debt and the funded debt being in the amount of outstanding warrants.

The decrease in the total indebtedness for the years 1885, 1886, 1887, 1888 and 1889 has aggregated \$7,780,521.02.

During the past year the accounts of each one of the City and County Departments have been completely audited by this Department for 1888, and, in addition, the accounts of each of the Magistrates, and the Sheriff, have been audited for the whole year of 1889.

The clerks provided for the revision of the registry

of delinquent taxes have completed an examination of all claims for taxes from 1869 to 1871 inclusive.

The amounts found in those years that are uncollectible for various causes are as follows:

I will present to Councils a detailed statement of the properties upon which the uncollectible taxes were charged, and the reasons for these being uncollectible, for such action as your Honorable Bodies may deem proper to direct.

It may also be remarked, that the estimate of receipts from the Gas Bureau for 1889, as furnished by the Department of Public Works, was \$4,000,000, while the actual receipts were \$3,658,295.09, being \$341,704.91 less than the estimate, and \$92,274.80 less than the receipts of 1888.

In calculating "the average income from sources other than current tax money (exclusive of Sinking Fund receipts), such average of income to be determined by ascer-

taining the average income during the five years immediately preceding," the receipts of the Gas Bureau and those from Liquor Licenses have not been included, as the receipts from Gas could enter into the average for twenty-one months only, and the receipts from Liquor Licenses for two years only. In view of these facts the foregoing system was adopted until such class of receipts shall have entered into the average for five years.

In desiring to aid the City's finances, I have added an estimate of receipts for State Tax on personal property, which will hereafter be paid to the City by the State of Pennsylvania by reason of an Act of Assembly, approved in 1889, which allows one-third of the tax, and an increase of \$100,000.00 to the State School Appropriation.

REPORT OF THE SUB-COMMITTEE TO CONSIDER THE FIVE-MILLION (5,000,000) DOLLAR LOAN BILL.

To the Committee on Finance.

GENTLEMEN:—The undersigned beg leave to report that they have carefully examined and considered the ordinance entitled “An Ordinance to authorize the creation of a loan by the City of Philadelphia for a sum of money not exceeding five million (5,000,000) dollars.” The ordinance is herewith returned to the General Committee with a number of important amendments, and with a request also that in its present form it be reported to Councils with a favorable recommendation.

The City Solicitor having heretofore advised Councils that they have the power to borrow money under the Act of 1874, it remains for us only to discuss two questions, the amount of the proposed loan, and the expediency of creating it. Under the Act of 1874, which for brevity of description may be called the One per cent. Act, the City would have the right to borrow the sum of six million eight hundred and eighty-seven thousand one hundred and thirty-five (6,887,135) dollars, that sum being one per cent. of the assessed value of the taxable property therein, six hundred and eighty-eight million seven hundred and thirteen thousand five hundred and eighteen (688,713,518) dollars. In point of fact, however, the City has already at different times heretofore availed herself of her power to borrow to the extent of two million two hundred and fifteen thousand (2,215,000) dollars, so that at the present time there remains to the City, by reason of constitutional and statutory prohibition and restriction, the right to borrow only the sum of four million six hundred and seventy-two thousand one hundred and thirty-five (4,672,135) dollars. Your Sub-Committee have therefore reduced the amount mentioned in the ordinance to the sum of four million six hundred thousand

(4,600,000) dollars, and in this form it will be in compliance with every legal requirement.

Now, as to the wisdom and expediency of creating the proposed loan. The Acts of Assembly require us to specify in the ordinance authorizing a loan the purposes for which the money is to be appropriated. These have been set out in the loan bill reported by your Sub-Committee with sufficient legal particularity, and if the mere enumeration of these requirements is not enough to commend the measure to the Committee on Finance and to Councils, it is hardly possible that additional argument on the part of your Sub-Committee will accomplish that result.

On the one side, the enormous expenditure of money out of current taxation upon the City Hall for many years past, made compulsory by the enactment of State laws; and on the other side, the oppressive and relentless exactions of the Sinking Fund, by which the debt of the City has been rapidly extinguished, have created in the public mind a feeling that, while it may be wise enough, and just enough, to provide in a great and liberal degree, for the requirements of posterity, it would not be out of place for us to consider, for at least a few years to come, the imperative and crying needs of the present generation. That is what this loan bill is for. We believe that nine out of every ten of our people will approve the measure, provided they can feel assured that the money will be wisely and honestly expended. Surely, Councils and the Mayor, with his department heads, can be relied on for a faithful administration of the important trust which the passage of this loan bill will create and impose on them. Let it be understood, also, that, with the passage of this bill, the power of the City of Philadelphia to borrow money, except for temporary and urgent purposes, will be exhausted. Even with the further reduction of the City debt, the power to borrow will not revive, and cannot be exercised without legislative authority. It is hoped and believed, however, that with the wise and provident expenditure of the money raised under the provisions of this bill, the condition of the City may be brought up, in a measure, to what it ought to be, so that, hereafter, with a very moderate increase in the tax rate, which will bear hard upon nobody, the City of Philadelphia may be advanced and maintained by her people in the front rank of

happiness, prosperity and progress. All of which is respectfully submitted.

WILLIAM M. SMITH,
EDWIN S. STUART,
THEODORE M. ETTING.

Philadelphia, January 7, 1890.

THOMAS MEEHAN, ESQ.,
Mount Airy, Philadelphia.

DEAR SIR:—I herewith send to you description of the lot of ground intended to be given by the heirs of the estate of Reuben Haines to the City for a park. Mr. Stewardson writes me that he has seen you in relation to it, and that there is little doubt about the City's accepting it. This piece includes only that part of the ground given by the Haines estate, and not that intended to be devoted by the Catholic Institution. The understanding, I think, with Mr. Stewardson is, that the Haines heirs only agree to devote this ground to the public in the event of the Catholics giving the strip of ground which they possess, bordering Cedar lane, from Price street to the railroad, to the same purpose. I believe that you or Mr. Stewardson have seen the father in charge of that institution, and has signified their willingness to join in the project.

Yours very truly,

MORRIS R. BOCKIUS.

AN ORDINANCE

To place upon the City plan Waterview Park, in the Twenty-second Ward.

SECTION 1. *The Select and Common Councils of the City of Philadelphia, do ordain*, That the lot in the Twenty-second Ward, bounded by Haines street, Underhill street, Price street, Cedar lane, and the right of way of the Chestnut Hill Railroad Company, containing about six (6) acres, described as follows: Beginning at a point at the intersection of the southeasterly side of Haines street, with the southwesterly side of a certain sixty feet wide street laid out on the City plan, and intended to be opened, called Underhill street, thence southwesterly along said side of said Haines street one hundred and eighty-five (185) feet three (3) inches to a point in the line of land of the Chestnut Hill Branch of the Philadelphia and Reading Railroad Company, thence along said land south five (5) degrees fifteen (15) minutes fifty (50) seconds, west two hundred and eighty-one (281) feet two and one-fourth ($2\frac{1}{4}$).

inches to the ground of the Mission of St. Vincent de Paul, thence along said last mentioned ground south forty-seven (47) degrees ten (10) minutes east three hundred and eighty-four (384) feet eleven (11) inches to the northwesterly side of Price street, thence northeasterly along said Price street four hundred and forty-nine (449) feet eight and one-fourth ($8\frac{1}{4}$) inches to the southwesterly side of said Underhill street north forty-seven (47) degrees twenty-seven (27) minutes forty-five (45) seconds west along said side of said Underhill street five hundred and fifty-five (555) feet to the said southeasterly side of Haines street and place of beginning, be and is hereby selected for a public park in accordance with the Act of February 2, 1854, and the Director of the Department of Public Works is hereby authorized and directed to place said park as above described, under the name of Waterview, upon the City plan.

RESOLUTION

Of thanks to the representatives of the estate of Reuben Haines for donation of land in Twenty-second Ward for a public park, and to suspend Joint Rule 4 of the Select and Common Councils.

Resolved by the Select and Common Councils of the City of Philadelphia, That the Mayor be requested to convey to the representatives of the estate of Reuben Haines the thanks of the City for the generous offer of nearly six acres of land on Haines street, which the City will accept for a public park, and which, at their desire, shall be known as Waterview Park.

GENTLEMEN:—The Committee on Finance respectfully report that they have considered a communication from Messrs. Baugh & Sons Company, asking to be reimbursed for the construction of the extension of Moore street

sewer through the company's property; and, on the recommendation of the sub-committee, whose report is hereto appended, submit the annexed ordinance to make an appropriation in accordance with said report, and recommend its passage.

To the Chairman and Members
of the Finance Committee.

Your sub-committee, to whom was referred the petition of The Baugh & Sons Company, would respectfully report that they have visited the locality, and ask that the appended ordinance be reported to Councils with a favorable recommendation.

EDWIN S. STUART, *Ch'n*.
THOS. GREEN.

Having made a personal investigation, I find the facts so peculiar that I unite with above recommendation. I do not approve, however, of encouraging the prosecution of public work without consulting the City. Such a system may involve mortgaging the entire appropriation for many objects, to the disadvantage of those who cannot raise the money to anticipate work that the City must eventually do.

CHAS. ROBERTS.

DEPARTMENT OF PUBLIC WORKS.

Philadelphia, February 5, 1890.

EDWIN S. STUART, Esq.,
Chairman of Sub-Committee.

DEAR SIR:—Yours of January 28th, enclosing copy of ordinance herein returned, received. In reply, the Chief Engineer and Surveyor report as follows:

“Mr. Close, Surveyor of the District, informs me that the section of the Moore street sewer through the bulk-

head built by Baugh & Sons has been constructed, as stated, by them. It is of ample size, and well constructed, and, for the amount of work done, the bill of cost is not out of the way. If Councils decide to reimburse them for the work, which is a question of policy under the circumstances, Messrs. Baugh & Son should agree to keep it in repair for three years from date of completion, the same as required of all sewer contractors, and they should furnish this Bureau with an accurate map, prepared by and certified to by the District Surveyor. The point made by them as to great haste being required, presumably not allowing them to get the matter authorized by Councils in advance, is not consistent with their statement that 'great delay was occasioned by a controversy in the Survey Department, regarding the exact location of the Port Warden's lines,' for this delay in building the bulk-head might have afforded ample time to get the authority in advance from Councils for the erection of the sewer."

Mr. Smedley's report covers the ground so thoroughly that I presume it is not necessary for me to say more than that it has my entire approval.

Yours, truly,

LOUIS WAGNER, *Director.*

AN ORDINANCE

To make an appropriation to Item 26½ in the annual appropriation to the Department of Public Works (Bureau of Surveys) for the year 1890, to reimburse Baugh & Sons Company, for money paid for construction of a section of the Moore street sewer.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the sum of two thousand four hundred and sixty-one (2,461) dollars and thirty-six (36) cents be, and the same is hereby appropriated to new item, to be called Item 26½, in the annual appropriation to the Department of Public Works (Bureau of Surveys), for the year 1890, to pay Baugh & Sons Company the amount paid by the said Baugh & Sons Company, less charge for frontage, for constructing a section of the Moore street sewer: *Provided*, That the said Baugh & Sons Com-

pany agree to keep the said section of sewer in repair for three years from date of completion, and also furnish the Department of Public Works with an accurate map, prepared by and certified to by the District Surveyor.

THE PENNSYLVANIA MUSEUM AND SCHOOL OF
INDUSTRIAL ART.*Philadelphia, March 6, 1890.*

To the Select and Common Councils
of the City of Philadelphia.

A communication was received from your Honorable Bodies a few days ago, enclosing a "Resolution to authorize the placing in Memorial Hall of the model of the Centennial Buildings and Grounds, presented to the City by Mr. John Baird."

This was brought before a meeting of the Museum Committee held on Monday, March 3, 1890, and on motion it was,

Resolved, That in reply to the Resolution of Councils read this day, it be stated that, after due investigation, it has been found that there is no available space of sufficient size and light now unoccupied, which would answer, for showing to any advantage, the interesting model which Mr. John Baird has presented to the City of Philadelphia.

The space in the two large galleries having been selected by, and granted to, persons who have left valuable collections on loan there, for the benefit of the public, during their absence abroad, with the understanding that they should remain in the places thus chosen.

That the Pennsylvania Museum and School of Industrial Art will gladly meet any Committee of Conference appointed by Councils, and explain in detail the present allotment of the space in Memorial Hall.

All of which is respectfully submitted,

WILLIAM PLATT PEPPER, *President.*

Resolved, by the Select and Common Councils of the City of Philadelphia, That the Mayor be, and he is hereby requested to direct the suspension of further construction on this street railway track until the suggested changes in grade and construction of a bridge can be thoroughly examined, plans prepared, and a report made to these Councils by the Department of Public Works, which the Director of that department is hereby requested to have done, with the proper ordinances for carrying the same into effect, if found practicable.

Philadelphia, January 15, 1890.

THOMAS M. THOMPSON, ESQ.,
Chairman of Committee on Finance.

DEAR SIR:—In the matter of the deficiencies now pending before your Committee, and to partially meet which

a transfer was made in December last, I have the honor to state that the following is the money still required to meet these deficiencies, and also to pay the money due for the completion of work under a contract between the City and M. C. Hong, for macadamizing Moyamensing avenue to Penrose Ferry bridge, the work being done by contractor B. M. Shanley, after contractor Hong had abandoned it. A communication was sent to Councils by His Honor, the Mayor, dated June 13, 1889, thoroughly covering this case, and a copy of which communication is hereto attached.

Yours truly,

LOUIS WAGNER, *Director.*

DEPARTMENT OF PUBLIC WORKS.

Philadelphia, June 13, 1889.

HON. EDWIN H. FITLER,
Mayor of Philadelphia.

DEAR SIR:—Some two years since, a contract was made between the City and M. C. Hong, for the macadamizing of Moyamensing avenue to Penrose Ferry bridge. The work was not done according to the contract, the Department refused to approve the warrants, and the contractor brought suit for the money claimed by him. He secured a verdict for a sum of eight thousand eight hundred and seventy-five (8,875) dollars and sixty-three (63) cents less than the amount of his contract. The money appropriated by ordinance of Councils to pay for this work has, by ordinance of Councils, been transferred and expended for other purposes.

Moyamensing avenue being in an unsatisfactory condition, I arranged, under the conditions of the contract with M. C. Hong, to have it completed at the expense of the contractor. This is now done, and B. M. and J. F. Shanley present a bill for ten thousand six hundred and seventy (10,670) dollars, and ask that it be paid.

I have the honor to request that you will ask Councils to pass a proper ordinance to that effect, so that settlement may be made with the new contractors; and a suit brought against the delinquent contractor and his sureties for the sum expended by the City in excess of the amount due him.

Yours truly,
LOUIS WAGNER, *Director.*

DEPARTMENT OF PUBLIC WORKS.

Philadelphia, March 1, 1890.

THOMAS M. THOMPSON, Esq.,
Chairman of Committee on Finance.

DEAR SIR:—In reply to your memorandum left here on February 28th, asking me whether I could suggest the

transfer of about fifty thousand (50,000) dollars, with which to meet the deficiency bills now in your hands, amounting to one hundred and twenty-three thousand (123,000) dollars, the fifty thousand (50,000) dollars to be returned from the permanent loan bill, I beg to say that the following transfers can be made:

Appropriation to City Ice Boats.

From Item 1.	Repairs.....	\$6,000 00
From Item 2.	Fuel.....	9,000 00
From Item 3.	Salaries and wages	8,000 00
From Item 4.	Provisions.....	2,000 00
Total.....		<u>\$25,000 00</u>

This money need not be returned, as the ice boats are not now, nor have they been at any time this winter, in service.

The other twenty-five thousand (25,000) dollars can be taken temporarily from the appropriation to the Bureau of Surveys, from either Item 28, bridge over Cresheim creek, Twenty-second Ward, twenty-five thousand (25,000) dollars, or from Item 29, branch sewers. In either case the money should be returned when the permanent loan bill passes.

I trust that this will enable you to have the appropriation ordinance, to pay deficiencies, passed at the next meeting of Councils.

Yours truly,

LOUIS WAGNER, *Director.*

From address of President Smith.

Referred to Committee on Municipal Government.

The needs of the Public School Department have also become urgent and imperative. What's the use of talking about compulsory education before we have provided for all the requirements of voluntary education. School room ought to be supplied for the very last child, who is willing and anxious to go to school, before you provide an inch of space for a boy or girl who will go to school only when compelled to go by an Act of Assembly of the Commonwealth of Pennsylvania.

There are, at the lowest calculation, eight or ten thousand children in the City of Philadelphia to-day for whom there is no school room at distances reasonably near and convenient to their homes. In some of the wards many of the children are obliged to be content with half-time, one set of children, in many cases fifty or sixty to a division, going to school in the morning, and another set in the afternoon. Leaving out of the case the cruelty that this practice involves to the teachers, and the great injustice it does to the children, and to their parents, if a more mortifying and humiliating spectacle can be presented for the contemplation of a great City like Philadelphia, I should like to know where and what it is.

To the Chairman and Members of the Committee on Municipal Government :

GENTLEMEN:—Your Sub-committee on Education, to whom was submitted the foregoing portion of the address of the President of Common Council, respectfully report

that at the outset of their examination, they took the school attendance (including the sick) in 1882, as given by the Board of Education, in comparison with the last report of the Board up to the commencement of their examination (May last), or December 31, 1887. This showed that the City was educating in some districts, seven thousand five hundred and seventy-one (7,571) children more than in 1882, but that this was in part accounted for by the withdrawal of two thousand one hundred and twelve (2,112) from other districts. The increase was therefore but five thousand four hundred and fifty-nine (5,459).

On the other hand, it was found that the City had met this increase during that time by an actual expenditure for school lots of one hundred and seventy-six thousand eight hundred and twenty-five (176,825) dollars, and for buildings, five hundred and sixty-four thousand two hundred and forty-four (564,244) dollars. This does not include money appropriated by Councils but not used. Only the contracts awarded and the buildings in use have been considered in these figures.

By wards, the figures are given here in detail.

It is but fair to state that the School Directors of the Twenty-ninth Ward protest against the fifty thousand (50,000) dollars being charged in the reports of the Board of Education against them, as it is not likely to be ever needed—that it is used to accommodate the Athletic Base Ball Club.

As these figures indicated that the school attendance was not increasing in proportion to the increase in school population, it was thought better for the chairman of the sub-committee to visit every school in the City, and note for the committee the exact condition of things. He has done this, with the exception of a few small schools, of one or two divisions, in the far, outlying rural districts—the river front portion of the Twenty-fifth Ward, the Twenty-third Ward, and a portion of the Twenty-first Ward. These have been omitted for want of time before the ending of councilmanic year; but the chairman gathered enough knowledge of these during work on the Highway Committee to gain a general knowledge of their condition consistent with the general character of this report. Notes were made of each school as they were visited; the causes for increase or decline being particularly inquired into.

So far as the general question submitted to the committee is concerned, not 500 children could be found

applying for instruction and refused admission into the schools. Some of the teachers believed there were many children running the streets whose parents did not care whether they went to school or not. In no case were those on the books kept very long without before their turn came. But a very large number were found crowded two and three in a seat, that should be occupied only by one or two; and in a number of cases, covering nearly 3,000 children, the classes were so large that two teachers had to be employed in rooms that should have but one division; or classes had to be formed, one in the morning, or one in the afternoon. Better accommodations for some five thousand children is certainly an immediate want. In some wards the schools are full, while the population is growing rapidly, and it is safe to say preparations should at once be commenced for five thousand more. In this sense, it is certainly wisdom on the part of the City to expect to be called on for accommodations for ten thousand within a very short time.

The Decline in School Attendance.

The want of correspondence between the increase of population and the increase of school attendance, is not to be attributed to any unpopularity in the public school system; but to a variety of causes which will always prevail under any system. There are some who desire to have sectarian religious teaching a part of the daily exercises in the schools. Of these, the exact number in the Roman Catholic schools, during the last year of this examination (1887), was found by the Chairman to be 19,462. Episcopalian and Lutheran schools are rapidly increasing in numbers; while schools, conducted by the Society of Friends, and by private parties, take a very large number. It is safe to assume that one-fourth of the school population are being educated outside of the public schools. Hitherto, the drain on these schools, from this cause, was found to be felt chiefly in the Primary, somewhat in the Secondaries, and very little in the Grammar grades. A large number, educated in the two lower classes privately, flowing into the Grammar to finish off. The underlying thought with the poorest man or woman is, however, that his children may rise in the social scale, and education that is intended merely for the poor will

never be popular education. The Roman Catholic Church has recognized this fact, and she is now adding the higher branches in competition with the public schools. There will, therefore, be less pressure on our Grammar schools in this quarter, than there has been.

Poor School Buildings.

In many wards the falling off was attributed to the moving away of population by the pressure of business establishments. But inquiry found no material decrease anywhere. The classes better off financially had migrated, but the poorer crowded in. There was, perhaps, no increase, but neither decrease. The voting figures, multiplied by four and one-half, formed the data for comparison. The chief trouble came from the old schools being dirty, dingy, unsightly, or lacking in those superior accommodations and cheerful surroundings that exist in modern buildings. In many cases children are sent out of the wards to other schools. This is notably the case in the grammar grades. So far as these are concerned, ward lines are practically abolished. In one grammar school the chairman found the attendance made up from fifteen different wards. In the older wards are, also, often dirty, inefficient janitors, and teachers infatuated with old-style notions. With dirty children, and miserable surroundings, the better classes pass these buildings by. A remarkable difference would also be found in wards under different sets of directors or controllers. The imbecility of these largely accounts for the falling off in some wards.

Supervising Principals.

In no way was the difference illustrated better than in the disposition of the Boards to adopt this new innovation. The Board of Education permits the local Boards to appoint a supervisor when there are eight or more divisions. This principal is not confined to teaching a single division, but is the great teacher of the whole school. A rigid examination in special studies is required to become a supervisor. Comparatively young teachers, who foster hopes of giving up teaching after a few years, do not enter this course—nor do those who have been long teaching and believe no advance in older methods necessary. But bright, active persons, so much in love with their profes-

sion that they would just as soon have it the whole business of their lives as not, become supervising principals. There are some good schools—popular schools—in wards where the old style is venerated by the directors; but in no one instance was a school found anywhere under a supervisor that was not successful in the widest sense of the term. In one school, where the children had gradually disappeared to nearly one-half during the period covered by this investigation, a supervisor was appointed less than a year ago, and three new divisions have been added within that period; and more pressing in Councils cannot do better than aid the Board of Education in all reasonable effort to extend the system.

Colored Children in the Public Schools.

A large number of schools have declined from the pressure of colored children into them. All persons are equal before the law, and the law can make no distinction between white children and black. Socially, a difference exists. White children leave the schools when possible, as the colored children come in. In very few cases do the colored people press their children into the white schools from any particular desire to mix with whites. If the Directors would give schools to first-class colored teachers, and good buildings to teach in, colored people would gladly support them. In most of the so-called colored schools in the City, white teachers are over them, and many of the rooms in which the schools are held are of the meanest possible character. It would be wise to give encouragement to colored schools, only when under the control of superior colored teachers. In one school your chairman found with eleven divisions of white children, all graded, one division of forty colored children, under a white teacher, being taught several grades. It is hardly to be expected that colored people should rest satisfied under such humiliating conditions. This could not have been well avoided in the past, when there were few competent colored teachers to be obtained. Philadelphia is now educating colored teachers at the Institute for Colored Youth at Bainbridge, above Ninth street, who are in demand over many portions of the United States. Several have graduated through our Normal school, and one is in charge of a flourishing school in the Twenty-second

Ward, with an admirable assistant, whose appointment was wisely endorsed by the Board of Education, when there was no one with a Normal school certificate to be had. In this way, schools become colored schools simply by the appointment of competent colored teachers, and the law against the establishment of separate colored schools is not violated in either spirit or form.

New School Buildings.

The Board of Education deserves praise for the care taken to improve the character of the new school buildings. In some instances money has been wasted in speculative improvements, with useless results, but to no greater extent than we find to occur in private life. As a whole, the work has been commendable, and has cost no more than such work should have cost. In some cases costly fire-escapes have been built, because of three-story buildings, when two-story buildings of wider dimensions, without fire-escapes, would have cost no more. This is excused by the difficulty of obtaining ground of suitable size, at moderate figures. Lots have sometimes had to be selected in localities where the roads are likely to be in a deplorable condition for years, where there are poor chances for good sanitary drainage, the surroundings likely to be of a poor or wretched character; or grading or other improvements likely to be of a heavy and expensive description. This is not always from necessity, but often comes from the pressure of the local Directors on the Board of Education, as much as because no better has been offered. The new law giving the Board power to take ground will remedy some of these evils. On the other hand, it must not be forgotten, that executive departments, responsible only for results, are seldom considerate of the tax-payer; and the new law will require additional care from the School Committee of Councils, that the purchase of extravagant-priced lots are not endorsed when lower-priced ones will do for all practical purposes just as well.

Another weak point noted by your chairman is, that new schools are sometimes built without due regard to the teaching that is to follow. A building for a girls' grammar can be arranged to advantage on a different plan from one intended for boys', and grammar schools of any kind different from primary or secondary schools. The

modern system of combined schools—grammar with primary and secondary grades—destined to be popular, should be so constructed as to especially reconcile these separate requirements. Statistics here given show that primary and secondary schools are more likely to fluctuate in their attendance. Grammar schools have the most enduring popularity. Councils should, therefore, favor the more liberal appropriations where grammar schools are asked for.

The System of Education as affecting School Buildings.

The methods of teaching is a matter wholly within the control of the Department of Education, but it has some bearing on school accommodations, and, so far, merits notice here. In brief, it may be noted that the system introduced of recent years advances the pupils more rapidly through the lower grades, while a four years' course is now given in the grammar grades, instead of two, as formerly. This is given as a reason by almost all the principals for the difficulty in maintaining some primary schools, and the crowding of the grammar grades. On the other hand, in many schools, a much larger number of children leave before completing the course than in former years. This, again, depends on locality, and no general rule can be formulated. Near large retail establishments secondary teachers complain that a large proportion leave for cash boys before they pass the eighth grade. In some vicinities, district messenger boys leave at about that grade, and girls leave to learn to be dressmakers, or for other pursuits. Near mills, the schools are so depleted that few girls get over the ninth grade, and not ten per cent. of those who enter the primary take the full school course. But in the more suburban schools, where there are fewer inducements to leave, and parents better off, a very large proportion remain to the end. It is thus seen how difficult it is for the Board of Education to establish a method of instruction that will work everywhere alike, and consequently of preparing school buildings that will work equally well everywhere.

Ward Lines.

The most serious difficulties are connected with ward lines. In a large number of instances they are virtually abolished, so far as school attendance is concerned. This

is especially true of grammar schools. Indeed, one ward has no grammar school. In one primary school in the Thirtieth Ward, the children are nearly all from the Twenty-sixth Ward. When a school gets run down from some unfavorable cause, the directors sometimes try to fill it by making arbitrary street lines. But, somehow, parents insist on sending their children to the popular and most attractive schools in spite of these rigid rules. Directors, however, do not see that in these struggles the fittest are bound to survive, and should be taught in some way to have better teachers and better schools. There is little trouble from this source in those wards where there are broad-minded men for school directors. Another ward trouble comes from railroad lines. Naturally, people object to their children crossing dangerous tracks, and the children on one side of a locality so bisected are taken into the schools of another ward.

The suggestion is often made that the Ward Boards should be abolished ; but this would be a grave mistake. Numerous matters are continually occurring in connection with repairs, troubles with parents and scholars, and many minor matters of detail that require the prompt attention of level-headed business men, who are on the spot. It would take a large force of salaried employees to look after these things, and in those larger matters within the province of the Board of Education to attend to, they would, in a great measure, be a long while in coming to their attention, only for the advice and concert of the local directors.

It might, however, be worth while for Councils to petition the legislature to have a periodical redistribution of the school sections, so as to change the boundaries of each section to suit the schools built, and their several grades of instruction, or other circumstances that have changed the situation of affairs since the districts were formed before.

Poor and Useless School-houses.

If the school sections could be redistricted, a number of school-houses could be wholly abandoned, by having the children sent to larger and better ones in what are now contiguous wards. A number of older school-houses are of so antiquated a character that new ones should be

built on more attractive lots. Quite a number of valuable buildings with fine lots are so nearly empty that the children could be transferred to other schools. Useless school properties could be sold for business purposes; that would produce money enough to build all the newer and attractive ones desirable in the older wards. No thought is given to this, because the proceeds from the sales of City property must go into the Sinking Fund to secure the City debt. But, as the debtor is equally secure if property sold is re-invested in property of precisely the same value, there ought to be no difficulty in getting a decision as to the legality of such a transfer; for it is, practically, but a transfer, and not a sale.

Money Required.

Taking the number being inadequately crowded at 5,000, and about 2,000 in rented buildings hardly fit for school purposes, with about 5,000, the increase coming and soon to be provided for—40 children to a division, and the cost of \$3,800 as an average figure for each division—an expenditure of a million now would meet every want; while an appropriation of about \$200,000 a year, annually, would meet, in all probability, the demand for future growth for many years to come.

It may be noted, in conclusion, that, since the preparation of the comparative figures, another annual report of the Board of Education has been issued, and another year nearly completed. Children have increased in the same ratio as before, and the same ratio of accommodations increased and paid for; so that the conclusions drawn from the sub-committee's investigations stand substantially the same.

APPENDIX No. 338.

Philadelphia, March, 13, 1890.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—The Joint Committee on Highways and Railroads, to which was referred “Resolution to appoint a commission to consider the subject of rapid transit in the City of Philadelphia, and to report its recommendation to Councils,” respectfully report that we have examined and approve the same, and submit for your consideration the annexed ordinance, and ask its passage.

Elias P. Smithers (*Ch’n*), Peter Monroe, Edw. W. Patton, Sam’l L. Snyder, W. McMurray, Watson D. Upperman, Edwin S. Stuart, W. Thornton, D. T. Jenks, A. Atwood Grace, Alex. Reinstine, R. E. Henderson, Samuel Crothers, Isaac D. Hetzell, J. M. Stratton, W. McCoach, *Committee on Highways*.

Thos. M. Hammett, John H. Graham, Thos. Green, Sam’l L. Snyder, Edw. W. Patton, Watson D. Upperman, W. Van Osten, Wm. H. Hill, Geo. W. Boyer, Wm. B. Souder, Chas. J. Hauger, Robert S. Leithead, John D. Heins, A. Kinkaid, *Committee on Railroads*.

AN ORDINANCE

To appoint a Commission to consider the subject of rapid transit in the City of Philadelphia, and to report its recommendation to Councils.

WHEREAS, In view of the rapid and continuous increase in the population of the City of Philadelphia, the erection of thousands of houses and the opening and improving of miles of new streets therein every year, we are compelled to recognize, viz.: That one of the most important subjects affecting the comfort and convenience of the more than a million inhabitants of the City is their transportation from one section to another, and the demand of those inhabitants for better and quicker interior transportation.

WHEREAS, It is estimated that there are from six hundred thousand (600,000) to seven hundred thousand (700,000) people south of Washington avenue, north of Spring Garden street, and west of the river Schuylkill. It is also

a fact that the built portions of the City represent a territory from southwest to northeast of at least twenty-two (22) miles, and from southeast to northwest, about fifteen (15) miles. The time has now come when it is our imperative duty to consider and devise a system of rapid transit that will, if possible, meet the approval of all the corporations now engaged in the conveyance of people, and at the same time originate a plan that will serve all parts of the City for the future. Therefore,

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That a Commission be, and it is hereby, appointed as follows: The Mayor; the Presidents of Select and Common Councils; the Chairman of the Joint Committee of Councils on Railroads, Finance, Highways, City Property and Surveys; three members each of Select and Common Councils to be appointed by the Presidents of the respective chambers; the City Solicitor; the Presidents of the Pennsylvania Railroad Company, the Philadelphia and Reading Railroad Company, the Philadelphia Belt Line Railroad Company; two from the Presidents of the Passenger Railway Companies of Philadelphia, the latter, with five citizens of the City of Philadelphia, to be selected in joint convention by these Councils, which Commission of twenty-five members shall meet without delay to consider the question of rapid transit within the City limits, to examine and consider the present means of transportation, together with the systems of underground, elevated and surface roads, and projects now pending in or that may be referred to them by Councils or by the public, and to report to Councils at the earliest date possible and consistent with the proper and thorough examination of each and every subject committed to it; but said report shall not be made later than October 1, 1890, at which date said Commission shall expire.

SECT. 2. The Chairman of said Commission shall be the Mayor of the City, and in case the Mayor shall decline to serve as Chairman, the Chairman shall be elected by the Commission. The said Commission shall serve without compensation. The Department of Public Works shall render such service to the Commission as shall be needed in their deliberations.

SECT. 3. The Committee of Finance be, and it is hereby,

requested to approve bills for the incidental expenses of said Commission, the same to be paid for out of Item 7 of the appropriation to the Clerks of Councils, to the amount of one thousand (1,000) dollars, the bills to be first approved by a majority of said Commission.

SECT. 4. The members of said Commission to be elected by Councils shall be elected by Councils in joint convention held at such time as the Councils may determine, and in case of vacancies in said Commission occurring by reason of any person or official named declining to serve, or otherwise, Councils may in joint convention fill such vacancies by the election of such persons as they may deem proper. The said Commission may be dissolved at any time on the passage of a resolution or ordinance to that effect.

OFFICE OF THE MAYOR.

Philadelphia, March 13, 1890.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—I have the honor to herewith return, without my approval, an ordinance entitled "An Ordinance to authorize the resurfacing of Ridge avenue, from Jefferson street to the County line."

This avenue is in a very bad state of repair, and should be resurfaced as contemplated by this ordinance; but the item out of which the amount of money named in the ordinance, five thousand (5,000) dollars, is to be taken, has to its credit a balance of but four (4) dollars and seventy-five (75) cents. It is, therefore, impossible to carry out the provisions of the ordinance should it become a law, and I return it to your Honorable Bodies without my approval, so that an additional appropriation may be made to do this very necessary work. I present the following statement of the condition of Item 4, in the appropriation to the Bureau of Highways for 1890:

APPENDIX No. 340.

RESOLUTION

Of request to the City Controller to countersign certain warrants, and suspending Joint Rule 4 of the Select and Common Councils.

Resolved, by the Select and Common Councils of the City of Philadelphia, That the City Controller be, and is hereby, authorized to countersign warrants for the purchase of ice, out of Item 3, for beef, mutton, pork, etc., in the annual appropriation to the Department of Charities and Correction (Bureau of Correction) for the year 1890, and that Joint Rule 4, of the Select and Common Councils, is hereby suspended, for the purpose of enabling the Clerks of Councils to present this resolution to his Honor, the Mayor, for his approval or disapproval.

APPENDIX No. 341.

RESOLUTION

Of request to the City Solicitor for information relative to the disposition of the moneys obtained from the sale of useless school buildings.

WHEREAS, A recent examination of the public schools of the City by the Committee on Municipal Government, develops the fact that, by the removal of population, the cutting off of sections by railroad lines, the proximity of large manufacturing establishments, the improvement in modern sanitary arrangements, rendering older buildings undesirable and unpopular, or from other depressing influences, a large number of school buildings in various sections of the City are comparatively empty, and it is desirable that they be removed to other localities and reconstructed on better principles;

Resolved, by the Select and Common Councils of the City of Philadelphia, That the City Solicitor be requested to inform these bodies whether the Act of April, 1855, requiring that for the security of the public creditors the

proceeds of sales of useless City property should be paid into the Sinking Fund towards the payment of the public debt, would prevent the City Councils from authorizing the Mayor or the Board of Public Education to sell such properties: *Provided*, The proceeds are invested in other school buildings elsewhere.

appropriation of two thousand one hundred and seventy-seven (2,177) dollars and thirty (30) cents to certain items in the annual appropriation to the Department of Clerks of the Courts of Oyer and Terminer and Quarter Sessions of the Peace for the year 1890, and submit the annexed ordinance to make an appropriation for said purposes, and recommend its passage.

AN ORDINANCE

To make an appropriation to Item 42, in the annual appropriation to the Department of Public Safety (Bureau of City Property), and Item 4, in the annual appropriation to the Clerk of the Courts of Oyer and Terminer and Quarter Sessions for the year 1890.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain;* That the sum of three thousand nine hundred and twenty-seven (3,927) dollars and thirty (30) cents be, and the same is hereby, appropriated to Item 42, in the annual appropriation to the Department of Public Safety (Bureau of City Property), and Item 4, in the annual appropriation to the Clerk of the Courts of Oyer and Terminer and Quarter Sessions, as follows:

APPENDIX No. 344.

Philadelphia, March 20, 1890.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—The Committee on Finance respectfully report that they have considered a petition of citizens of the Twenty-first Ward, in reference to the taking of the toll bridge at Manayunk for public use, and for the reasons contained in the report of the Sub-Committee, which is hereto appended, submit the annexed resolution from the said Sub-Committee, and recommend its passage.

Thomas M. Thompson (*Ch'n*), Geo. B. Edwards, Wencel Hartman, James A. Freeman, Theodore M. Etting, Samuel Hart, Thos. M. Hammett, Edwin S. Stuart, Thos. Green, Thos. J. Rose, John H. Graham, Edward A. Anderson, J. Raymond Claghorn.

To the Chairman and Members of the Finance Committee.

GENTLEMEN:—Your Sub-Committee appointed to consider the petition of the citizens and tax payers of the Twenty-first Ward, in reference to the taking of the toll bridge at Manayunk for public use, respectfully report that in accordance to the purpose of their appointment the committee carefully considered said petition, heard the parties in interest, and personally viewed the said bridge, its site, and the site of a proposed bridge some distance above the one in question. They have arrived at the conclusion that the site of the present bridge is the proper and only available one, and that it will be to the advantage of the City that the present bridge should be taken rather than a new one built at the other site proposed. We are also of the opinion that this bridge should be freed, in justice to the citizens of that locality, there being a public demand that will warrant the City in the expenditure necessary, and the price (under the circumstances of the proper site being that the one now occupied by the present bridge) to be a reasonable one. We, therefore, report by the following resolution, and request its passage.

EDWARD A. ANDERSON,

Chairman.

THOS. GREEN,

RESOLUTION

To direct the City Solicitor to withdraw exception to the award of the jury in the matter of the taking of Manayunk bridge.

Resolved, by the Select and Common Councils of the City of Philadelphia, That the City Solicitor be authorized and directed to withdraw the exceptions filed by the City to the award of the jury in the matter of the taking of the Manayunk bridge, at Green lane, Twenty-first Ward.

APPENDIX No. 345.

Philadelphia, March 27, 1890.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN: — We, your Committee on Surveys, to whom was referred the accompanying ordinance to revise a portion of Plan No. 251, beg leave to report the bill as presented contemplated the raising of Seventeenth street and Lehigh avenue, so as to carry them over the Connecting Railroad. Owing to the cost for damages, it is deemed inadvisable to so change the grade. The street should, however, be lowered to provide a clearance of fourteen (14) feet under the railroad, which can be done without damage. We ask the passage of the annexed bill.

Thomas L. Hicks (*Ch'n*), D. C. Cleaver, Geo. L. Horn, James Kenton, Isaac D. Hetzell, O. M. Willson, John O. Taxis, Jos. H. Brown, Frank Schanz, James Hagan, F. M. Harris, Wm. P. Becker, John B. Dallas, Thos. Wagner, Jr., Charles W. Savidge, L. W. Moore, W. Thornton, W. H. James.

AN ORDINANCE

To revise the lines and grades of a portion of Plan No. 251.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Public Works be authorized and directed to revise the lines and grades of a portion of Plan No. 251, bounded by Huntingdon, Fifteenth, Indiana and Twenty-first streets, lowering the grade of the intersection of Lehigh avenue and Seventeenth street two (2) feet, and carrying said Seventeenth street and Lehigh avenue under the Connecting Railroad by undergrade bridges, with at least fourteen (14) feet clearance.

APPENDIX No. 346.

Philadelphia, March 27, 1890.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was recommitted the accompanying ordinance to amend an ordinance entitled “An Ordinance to place upon the City plan Filbert street, from Forty-first to Forty-third street, and Forty-third street, from Market street to Powelton avenue,” beg leave to report that since the passage of the original ordinance, improvements have been made in the way of buildings, which would make the carrying into effect of the provisions of that ordinance highly expensive.

An easier way is offered by which an outlet can be secured without the destruction of the buildings, and consequently with less cost. By the annexed bill the cost will only be for the taking of the lot thirty feet wide, fronting on Market street. We ask the passage of the bill.

Thomas L. Hicks (*Ch'n*), D. C. Cleaver, Geo. L. Horn, James Kenton, Isaac D. Hetzell, O. M. Willson, John O. Taxis, Jos. H. Brown, Frank Schanz, F. M. Harris, Wm. P. Becker, John B. Dallas, Thos. Wagner, Jr., Chas. W. Savidge, L. W. Moore, W. Thornton, W. H. James.

AN ORDINANCE

To amend an ordinance, entitled “An Ordinance to place upon the City plan Filbert street, from Forty-first to Forty-third street, and Forty-third street, from Market street to Powelton avenue.”

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That an ordinance entitled “An Ordinance to place upon the City plan Filbert street, from Forty-first to Forty-third street, and Forty-third street, from Market street to Powelton avenue,” approved the twelfth day of March, 1887, be altered and amended so as to read: That the Department of Public Works be, and is hereby authorized to place upon the City plan Filbert street, from Forty-second street to Market street, in the Twenty-fourth Ward.
